KANSAS FIRE & RESCUE TRAINING INSTITUTE
The University of Kansas

Dear Certification Candidate,

Welcome to the National Fire Fighter Certification Program! Congratulations on completing your course of study and preparation for the National Certification process. You are embarking on a journey that will prepare you to better serve your community. Furthering your firefighting education is one of the best ways ensure that you, your coworkers, and your community are safe. You've done a good job so far. Good luck on your exams!

The Kansas Fire & Rescue Training Institute is accredited by the International Fire Service Accreditation Congress (IFSAC) and by the National Board on Fire Service Professional Qualifications (NBFSPQ - also known as "Pro Board"). These accreditation agencies establish rules and standards to follow in the administration, recordkeeping, and providing of National Certification for the fire service. Through this accreditation, Kansas Fire & Rescue Training Institute is authorized to issue accredited National Certifications to individuals meeting the requirements of selected national standards.

Kansas Fire & Rescue Training Institute's role in the process is to maintain exam materials and provide a fair and accessible system of administering certification exams.

This National Certification Preparation Guide was specifically designed to help you prepare for the testing process ahead. This guide gives reading references for the written exam and the skills exam but please remember that you should read all the materials provided in your course and you may need to read the material more than once. The National Certification process will assess your ability to analyze information, think critically, and apply this knowledge in the performance of practical skills. All exam material is developed according to the Job Performance Requirements (JPRs) found in NFPA 1001, 2019. When in doubt, always go back to the Standard.

Good luck,

KFRTI Staff

(This page is intentionally left blank.)

National Certification

National Certification is a professional credential that verifies your proficiency in the level to which you were/are certified. National Certifications earned in Kansas do not expire. If you are moving to another state, you should contact the certification entity in that state to find out if your National Certification from Kansas is recognized in that state.

Certification Program Mission

This mission of the National Certification Program is to maintain an accredited system for Kansas fire service members to earn National Fire Service Certification professional credentials.

Certification Program Values and Principles

In the conduct of this program, the Kansas Fire & Rescue Training Institute uses the values listed below to guide our professional conduct; they form the foundations and parameters of this program.

- We hold in high regard honesty and integrity in ourselves and those we serve.
- Kindness and professionalism guide our instructors and our evaluators.
- We respect the fire and emergency service and those who serve in it.
- Transparency of our system, processes, and policies is paramount.
- The certification standards drive fair evaluation and testing.
- We value our role as the provider and protector of the national certification program's credibility.

Academic Accommodation

KU provides accommodations for certification candidates in compliance with the Americans with Disabilities Act. Documentation of the diagnosis from a qualified professional, and a request for accommodation, should be submitted in writing to the Kansas Fire & Rescue Training Institute Certification Manager at least two weeks prior to the exam. The submitted documentation will help KFRTI identify appropriate accommodations. The two-week advanced notice/request allows the Institute to assemble the resources necessary for the accommodation.

Academic Integrity

We hold staff (including part-time) and certification candidates to identical ethical standards. We expect professional behavior at all times. Any incident of academic misconduct by a candidate will invalidate their exam results, forfeit their certification fee, and may subject them to suspension from the certification process for one year.

Academic misconduct includes cheating, plagiarism, falsification of records, unauthorized possession of examinations, intimidation, and/or other actions that may improperly affect the evaluation of a candidate or assisting others in any such act.

Our policy on academic misconduct is that of "zero tolerance."

The University of Kansas prohibits discrimination. Specifically, the University of Kansas prohibits discrimination on the basis of race, color, ethnicity, religion, sex, national origin, age, ancestry, disability, status as a veteran, sexual orientation, marital status, parental status, gender identity, gender expression, and genetic information in the University's programs and activities. Retaliation is also prohibited by University policy.

How to Use the Certification Preparation Guide

This National Certification Preparation Guide is specifically designed to help you prepare for the testing process ahead. This guide provides NFPA JPR and reading references for the written exam and the skills exam.

We have included all administrative forms needed by our office to complete your certification. Please complete all forms in appendix A and bring them with you to the test site. We have also included instructions for creating a profile in our system, registering for your exam, and checking your exam results. Please see appendix B for these instructions.

We have included information in this guide that will help you achieve the professional credential that is Fire Service National Certification. There are a few key elements in preparing for the National Certification Exam. You should take some time between the end of your course and the certification exam to focus on studying for the exam. You should use this Preparation Guide to help focus on the requirements of the National Standard and your study time.

STEP 1: Complete all forms in appendix A. Don't forget to have your Chief or Training Director sign the appropriate forms.

STEP 2: Follow instructions in Appendix B to register for your exam.

STEP 3: Review the Reading Reference pages and Skill Evaluation sheets in this Certification Guide.

- The Reading Reference pages are arranged by Job Performance Requirements (JPRs), which are determined by the correlating NFPA standard.
- Take note of the Instructions to the Candidate (grey boxes) on each Skill Sheet. These are the instructions that the evaluator will give to you in each station before you test.
- Skills sheet references take you back to the reference manual to explain the skill. You will be graded only on those items listed on the skill evaluation sheets. Use these in your practice and exam preparations.

STEP 4: Read & Review, Read & Review, Read & Review, and Practice, Practice, Practice!

- Don't practice until you do it right; *practice until you can't do it wrong!*

STEP 5: Get a good night's rest before the exam.

- You can be tired in any of three ways: Mentally, Physically, and Emotionally. If you are tired in any of these ways, it will make you tired in ALL of them.
- Save the party for after the exam…get a good night's rest...eat a good breakfast (if you test in the morning)…easy on the sugar and caffeine…and relax!

GOOD LUCK!

Note:

If you are exploring National Certification and haven't taken a course specifically for the level of certification you are seeking, we STRONGLY suggest that you start the process by taking a course. Under certain circumstances, you may challenge some certification exams. Persons who take a course first do much better on the exam. Contact the Kansas Fire & Rescue Training Institute for more information.

National Certification Application & Processes

Steps for Fire fighter I

Prerequisites: All candidates are required to have certified for NFPA 470, Chapter 5 (Haz Mat Operations) prior to completing NFPA 1010, Fire Fighter I National Certification. Certifications from other entities will be evaluated for reciprocity as per the KFRTI's Reciprocity policy.

Registration for Exams: Pre-registration is required. Go to the KFRTI online registration point to register and pay certification fee. Instructions can be found in Appendix B. (https://www.enrole.com/kupce/jsp/index.jsp?categoryId=10019)

Certification Fees: Certification fees must be paid before the exam date. Individuals are required to pay fees on-line when registering for an exam.

(Organizations may request to be billed; this billing process requires a Department Billing form from that organization stating each candidate's name. To arrange billing, call the KFRTI at 1-866-804-8841. Billing cannot be processed online.)

Number of Attempts: Candidates are allowed two attempts per exam per application, and all testing elements must be completed within one year of the first testing activity. Additional testing requires a new application and fee.

Picture I.D. Required: A government issued photo I.D. is required at the exam site.

What if I Fail the Exam?

Failure of any required component (not submitting a signed Local verification form, less than 70% on the written exam or less than 100% on the skills exam) constitutes a failed attempt.

a. Candidates may retest on any component of the exam (written, or skills exams) and resubmit an incomplete verification form.
b. Candidates must register to take a re-test at another exam site. No walk-in testing is allowed. To register for a re-test, call the Institute at (toll free) 866-804-8841.
c. Candidates are allowed two (2) attempts at the exam. If a candidate fails the exam twice and wishes to take the exam again, a new certification fee payment is required. The new fee will allow the candidate two more attempts at the exam.
d. The Institute strongly recommends that candidates study and/or seek additional training before attempting the exam for a third attempt.

Time to Complete Certification

Candidates have one year from the date of their first testing action to complete their certification. Written and skills testing and re-testing, verification forms, and all other requirements must be completed within that year. Failure to complete the certification within that year will invalidate all previous testing and the candidate will be required to submit a new application, new certification fee payment, and new verification forms. The candidate must also re-test and pass the written and skills exams before being granted national certification.

Fire Fighter I - Steps to Certification

- ○ Complete Fire Fighter 1 coursework and prepare for the exam.

- ○ Create Profile in KU system. This will allow you to register for courses and exams, view exam results online, print course completions and transcripts, prints copies of your certifications. (please see Appendix B for instructions for setting up a profile)

- ○ Choose testing location. Fire Fighter 1 Certification requires a 100-question written exam and a hands-on skills exam. The exams are routinely offered at sites throughout the state. Additionally, written exams may be taken at the KFRTI office in Lawrence. Hands-on skills exams are only offered at certification exam sites. You can find a list of scheduled exam sites at https://kupce.ku.edu/kufire-fire fighter-certification

- ○ Register on-line and pay exam fee. Registration must be completed prior to the exam date. On-site registration is not allowed.

- ○ Complete all forms in Appendix A – forms *MUST* be turned in to Exam Site Coordinator on the day of testing.

    - Fire Fighter I Local Verification & Mask Fit Form - *MUST be signed by Fire Chief, Training Chief or Program Director.*

    - Live Fire Verification Form - *MUST be signed by Fire Chief, Training Chief or Program Director.*

    - National Certification Application Form – if you are registering for more than one level at this exam site you need only submit one application, please check all levels you are seeking.

- ○ Take written exam

- ○ Take hands-on skills exam

- ○ All exam results will be posted in your student record 10-20 working days after exam. Instructions for checking exam results on-line can be found in Appendix B. You will receive exam results in your online profile 15-20 working days after exam.

- ○ If you do not pass any portion of the certification exam you may register for a retest by calling KFRTI at 866-804-8841 (toll free). Written retests may be taken at the KFRTI offices in Lawrence or at a scheduled exam site. Skills exam retests must be taken at a scheduled exam site. You MAY NOT register for a retest on-line.

Kansas Fire & Rescue Training Institute's National Certification Requirements for Fire Fighter I

Fire Fighter I Local Verification Form:

This form verifies requirements that cannot be tested on a written exam and requirements of the standard that are based on local fire department/organization practices and policies. This form can be found in appendix A.

This form documents:

a. Candidate's SCBA mask fit has been performed. Due to the potentially hazardous atmospheres that fire fighters operate in, SCBA Fit Exam compliance is required as part of the certification process.

b. The Candidate has successfully demonstrated the JPRs listed in NFPA 1010 – 2024, JPR 6.1.1, Locate Information in Departmental SOPs.

Any incomplete or unsigned verification form submitted by candidate will be returned for corrections or additional information. Corrected forms must be returned to KFRTI to receive credit.

Fire Fighter I Certification Exam

Written Exam:

a. The Fire Fighter I written exam includes 100 multiple choice and true/false questions.

b. Candidates are allowed two (2) hours to complete the exam.

c. Answer sheets and pencils are provided.

d. No cell phones, radios, smart watches, or other electronic devices are allowed in the room while an exam is being administered (an exception for radios that allow "on-duty" personnel to receive alarms may be granted under special circumstances).

e. A 70% minimum score is required to pass the written exam.

f. No same-day written re-tests allowed.

Reading Reference/Text

The Fire Fighter I exam is referenced to:

- *IFSTA Essentials of Firefighting, 7th Edition*
- *Jones & Bartlett Fundamentals of Firefighter Skills and Hazardous Materials Response, 5th Edition*

National Certification exam is based on: *NFPA 1010 Standard on Professional Qualifications for Fire Fighters, 2024 Edition*

Written Exam Study Pages

Written exam study pages can be found in IFSTA Essentials of Fire Fighting Edition 8, Appendix A, pages 831-832

Fire Fighter I Skills Exam
Study/Preparation Information and Materials

Fire Fighter I Skills Exam:

a. The Skills Exam includes individual and team skills. Depending on the skill, candidates will perform individually, or as a member of a team.

a. Groups of 4 to 6 candidates are formed for the purpose of skills testing. Individual candidates may not pre-select crews or make up crews of their own choosing. Groups (for testing purposes) are appointed by the Exam Coordinator at the exam site.

b. When performing as a member of a team, evaluation includes both individual performance and performance as a member of the team.

c. Skills Exams may be tested in scenario groupings. Scenarios will combine 4-8 JPRs as listed on skill sheets. Scenarios will represent real world application of performance skills as they will be performed on the fire ground. Candidates will be tested over 4-8 JPR skills in two or three scenario stations.

    - For example: KFRTI Skill Evaluation Sheets 3, 4, and 9 can be combined into a scenario where the candidate receives an emergency phone call, notifies dispatch, mounts appropriate apparatus, and communicates with dispatch via fire department radio. This scenario would test three skills following the criteria on the individual skill sheets.

d. You will be given up to two attempts at each station. The two attempts per station make up your first overall attempt at the skills exam.

e. Skills exams require 100% to pass in all stations.

f. No same-day skills re-testing allowed.

Time allowed to take exam: The overall exam is not timed; however, individual skills and/or stations may include a maximum/minimum time (consistent with reasonable fire ground time/operations.

Passing Score: Skills exams require 100% on all stations and skills.

No cell phones, radios, smart watches, or other electronic devices are allowed while a skills exam is being administered (an exception for radios that allow “on-duty” personnel to receive alarms may be granted under special circumstances).

(This page is intentionally left blank.)

Fire Fighter I
Skill Evaluation Sheets

This Skills Evaluation Sheet is the exact grading sheets that evaluators use during the Skills Test. This sheet has been edited for the explicit use of grading skills and should not be used to learn the skills.

This Skill Evaluation Sheet has been included in this Preparation Guide for the purpose of guiding you as final preparations are made (and practice performed) for the Qualification Exam.

Grading for the Skills Evaluation requires 100% of the steps listed on the sheet be performed. You will not be evaluated on steps of the skills that are not listed on these evaluation sheets.

Fire Fighter 1 Skills Set: Initiate the Response to a Reported Emergency FS-1

Reference:	NFPA 1010, 2024 Edition, Chapter 6, JPR 6.2.1, 6.2.2 IFSTA, Essentials of Fire Fighting, 8th ed., ©2024, Pages 69-81, 83-85 IFSTA Skills Sheet 3-1, 3-2
Evaluator Equipment Required:	Host department radio
Candidate Equipment Required:	Station uniform clothing.

Evaluator's Instructions to Candidates

At this station, you will receive a call from a citizen who will either initiate an emergency or request assistance with a routine matter. You will be required to record the information, appropriately handle the caller, operate the communications equipment, and convey the information in a clear and concise manner.

This is a timed event. The maximum time to complete these skills is 3 minutes.
To pass this station, you must successfully complete 100% of the steps.

Evaluated Skill Items

	1st Attempt		2nd Attempt	
Initiate the Response to a reported emergency- 6.2.1	**Pass**	**Fail**	**Pass**	**Fail**
1. Record type of incident (Routine or Emergency) & address of the incident	☐	☐	☐	☐
2. Requested caller's name and telephone number.	☐	☐	☐	☐
3. Notified dispatch center of incident.	☐	☐	☐	☐
4. Provided dispatch with accurate data.	☐	☐	☐	☐
Transmit and Receive Radio messages -6.2.2				
5. Identified station or self with correct call sign.	☐	☐	☐	☐
6. Responded to transmission appropriately for emergency or routine traffic.	☐	☐	☐	☐
7. Holding microphone correctly, spoke clearly, calmly and distinctly.	☐	☐	☐	☐
8. Met time requirement (3 minutes)	☐	☐	☐	☐

IFTSA Firefighter I Skill Sheets, Skill Sheet 6-1, 6-2

Evaluator Equipment Required: None

Candidate Equipment Required: Complete NFPA-Compliant Personal Protective Clothing Ensemble.

Evaluator's Instructions to Candidates

At this station, you will be required to don a personal protective clothing ensemble. The exact sequence of donning the clothing is not graded. However, once completed, all components must be correctly worn and ready for firefighting operations (minus SCBA). When you have completed all donning procedures, clap your hands, and I will inspect you. After I have checked your personal protective clothing ensemble, you will then be instructed to doff your personal protective clothing ensemble and prepare it for reuse.

This is a timed event. The maximum time to complete these skills is 2 minutes.
To pass this station, you must successfully complete 100% of the steps.

Evaluated Skill Items

Don & Doff Personal Protective Clothing Ensemble	**1st Attempt**		**2nd Attempt**	
	Pass	**Fail**	**Pass**	**Fail**
1. Donned protective hood.	☐	☐	☐	☐
2. Donned trousers/pants with suspenders	☐	☐	☐	☐
3. Donned turnout coat. All fasteners (including collar) secured.	☐	☐	☐	☐
4. Donned helmet. Chin strap secured. Ear flaps in place	☐	☐	☐	☐
5. Donned gloves.	☐	☐	☐	☐
6. Perform field reduction of contaminents according to SOGs/SOPs.	☐	☐	☐	☐
7. Doffs PPE and prepares for reuse.	☐	☐	☐	☐
8. Met time requirement (2 minutes)	☐	☐	☐	☐

IFSTA Firefighter I Skill Sheets 6-3, 6-4, 11-1

Evaluator Equipment Required: None

Candidate Equipment Required: Self-Contained Breathing Apparatus, Cylinder, Mask, Turnout Gear

Evaluator's Instructions to Candidates

At this station, you will be required to don Self-Contained Breathing Apparatus (SCBA). The method and exact sequence of donning the SCBA is your choice, but it must be donned correctly. When you have completed all donning procedures, clap your hands and I will inspect you. Once you have clapped your hands indicating you are done, do not touch your gear until I have checked it. You will start this station wearing your helmet (with loosened chinstrap) but not your gloves. However, once completed, the SCBA must be correctly worn and you should be ready for interior structural firefighting operations.

This is a timed event. The maximum time to complete the donning skills is 2 minutes.
To pass this station, you must successfully complete 100% of the steps.

Evaluated Skill Items

	1st Attempt		2nd Attempt	
Donning SCBA	**Pass**	**Fail**	**Pass**	**Fail**
1. Placed SCBA on back, fastening & tightening all straps.	☐	☐	☐	☐
2. Donned and adjusted facepiece.	☐	☐	☐	☐
3. Pulled hood over facepiece straps.	☐	☐	☐	☐
4. Replaced helmet & fastened chinstrap (airline is not caught under chinstrap)	☐	☐	☐	☐
5. Regulator correctly mounted to facepiece and locked in.	☐	☐	☐	☐
6. Turned cylinder valve on to within one quarter (1/4) turn of fully open.	☐	☐	☐	☐
7. Turned on PASS device (if separate from SCBA).	☐	☐	☐	☐
8. Met time requirement (2 minutes)	☐	☐	☐	☐
Use SCBA During Operations				
9. Demonstrated controlled breathing.	☐	☐	☐	☐

Fire Fighter 1 Skills Set: Set Up Ground Ladders — Item V-1

Reference: NFPA 1010, 2024 Edition, Chapter 6, JPR 6.3.6
IFSTA, Essentials of Fire Fighting, 8th ed., ©2024, Pgs 335-337, 345-381
IFSTA Firefighter I Skill Sheets, Skill Sheet 9-3 through 9-8

Evaluator Equipment Required: Ladders

Candidate Equipment: NFPA-Compliant Personal Protective Clohting Ensemble

Evaluator's Instructions to Candidates

At this station, you will operate as a member of a team, demonstrating the ability to carry ladders; set and raise ladders; judge correct angle for climbing; and judge extension ladder height requirements. You will be required to assess overhead hazards, strength of structural support components, and any other existing hazards. You must verbalize the decisions you would ordinarily make in your head. You will carry the ladder from the start point to a location appropriate to the scenario I give you. The scenarios will tell you whether you are conducting a rescue from a window, laddering a roof, ventilating an upper floor window, etc. You are required to observe all safety precautions when moving ladders. You may use an approved ladder carry technique of your choice. You may use any approved method of raising the ladder appropriate to the scenario I give you and the location of the ladder raise. At the end of this scenario, you will safely lower the ladder and return it to the start point. This is a timed event. Expected time to complete skill(s) is 5 minutes. To pass this station you must successfully complete 100% of the steps.

Evaluated Skill Items

Set Up Ground Ladders	**1st Attempt Pass**	**1st Attempt Fail**	**2nd Attempt Pass**	**2nd Attempt Fail**
1. Carried the ladder correctly.	☐	☐	☐	☐
2. Checked for hazards & overhead wires & placed ladder accordingly.	☐	☐	☐	☐
3. Confirmed that wall/roof will support the ladder.	☐	☐	☐	☐
4. Raised/extended ladder safely, avoiding all obvious hazards.	☐	☐	☐	☐
5. Confirmed all ladder flies were locked & tied off halyard. (Extension ladders only)	☐	☐	☐	☐
6. Ladder set up safely at correct climbing angle, tip location appropriate to scenario.	☐	☐	☐	☐
7. Stabilized ladder (tied off or heeled).	☐	☐	☐	☐
8. Lowered ladder safely.	☐	☐	☐	☐

Evaluator Equipment Required: (2) 25-ft lengths of ½" rope; (1) 25-ft length of 3/8", 7/16" or 5/8" rope; pick head axe; pike pole; roof ladder; nozzle & one length of attack line; vent saw. Complete NFPA-Compliant Personal Protective Clothing Ensemble.

Candidate Equipment Required:

Evaluator's Instructions to Candidates

At this station, you will be required prepare tools and equipment to be hoisted to the roof of a building. You may use any fire service knots of your choice that are appropriate to the tool or equipment to be hoisted. You must back up each knot with a safety knot as appropriate. You may remove your gloves for this station.
This is a timed event. Expected time to complete skill(s) is 15 minutes. To pass this station you must successfully complete 100% of the steps.

Evaluated Skill Items

General Skills - Hoist Tools & Equipment- One of the following	1st Attempt Pass	1st Attempt Fail	2nd Attempt Pass	2nd Attempt Fail
1. Hoist an axe (head down, clove hitch, 2 half hitches, tag line)	☐	☐	☐	☐
2. Hoist a pike pole (point up, clove hitch, 2 half hitches, tag line)	☐	☐	☐	☐
3. Hoist a roof ladder (ladder hooks up, figure-8-on-a-bight, safety knot, tag line)	☐	☐	☐	☐
4. Hoist a dry hoseline (line folded over 4'-5', clove hitch, half hitch)	☐	☐	☐	☐
5. Hoist a chainsaw or rotary saw (figure-8-on-a-bight or figure-8-follow-thru, safety knot, tag line)	☐	☐	☐	☐

Fire Fighter 1 Skills Set: Perform Horizontal or Vertical Ventilation on a Structure

Item V-3

Reference:	NFPA 1010, 2024 Edition, Chapter 6, JPR 6.3.11, 6.3.12
	IFSTA, Essentials of Fire Fighting, 8th ed, Pages 362-382, 509-532, 683-703
	IFSTA Firefighter I Skill Sheets, Skill Sheet 12-1 through 12-4
Evaluator Equipment Required:	Pumper apparatus, hose/nozzle, ladders, tools, ventilation fan
Candidate Equipment Required:	NFPA-Compliant Personal Protective Clothing Ensemble with SCBA

Evaluator's Instructions to Candidates

At this station, you will be required to perform horizontal or vertical ventilation on a structure while operating as a member of a team. You will ventilate the structure using a selected type of ventilation. You will select the proper tools. You will be required to wear the full Personal Protective Clothing ensemble, to include eye protection, if you perform the task from the exterior of the simulated structure. If you perform the task from the interior of the structure, you must wear the full Personal Protective Clothing ensemble and SCBA. After an opening is established, you will place and activate ventilation devices and clear smoke from structure. This is a timed event. Expected time to complete skill(s) is 15 minutes. To pass this station you must successfully complete 100% of the steps.

Evaluated Skill Items

	1st Attempt		2nd Attempt	
Perform Horizontal Ventilation on a Structure- 6.3.11	**Pass**	**Fail**	**Pass**	**Fail**
1. Carried ventilation equipment, tools, & ladders correctly.	☐	☐	☐	☐
2. Set up ventilation equipment & ladders correctly.	☐	☐	☐	☐
3. Operated ventilation equipment correctly (e.g., fans, hoses).	☐	☐	☐	☐
4. Used hand tools correctly.	☐	☐	☐	☐
5. Safely broke out window/door glass correctly & completely.	☐	☐	☐	☐
Perform Vertical Ventilation on a Structure-6.3.12				
1. Chose & carried appropriate tool(s) for assigned task.	☐	☐	☐	☐
2. Raised ground ladder correctly.	☐	☐	☐	☐
3. Carried and placed roof ladder correctly. **(Pitched Roof Only)**	☐	☐	☐	☐
4. Ventilation tools carried safely while ascending and descending ladder.	☐	☐	☐	☐
5. Sounded roof for integrity/structural components in ventilation target area.	☐	☐	☐	☐
6. Cut opening with ventilation saw or axe and removed ventilation barriers.	☐	☐	☐	☐
7. Structural integrity was not compromised by cut.	☐	☐	☐	☐

Fire Fighter 1 Skills Set: Force Entry Into Structure — Item S-1

Reference:	NFPA 1010, 2024 Edition, Chapter 6, JPR 6.3.4 IFSTA, Essentials of Fire Fighting, 8th ed, ©2024, Pgs 99-126, 389-450 IFSTA Firefighter I Skill Sheets, Skill Sheet 10-2 through 10-9
Evaluator Equipment Required:	Forcible entry tools, door prop, window prop, wall prop.
Candidate Equipment Required:	NFPA-Compliant Personal Protective Clothing Ensemble, Self Contained Breathing Appratus with PASS device.

Evaluator's Instructions to Candidates

At this station, you will be required force entry into a building, through a door, a window, or a wall as a member of a team. I will give you your specific assignment shortly. You must observe all safety precautions and demonstrate proper use of tools, ensuring that the opening is in a safe condition and ready for entry when you indicate to me that you are done. Do not skip steps or assume anything about the door, window or wall. (ONLY IF REQUIRED TO SIMULATE FORCIBLE ENTRY, READ THE FOLLOWING: To prevent actual property damage to the fire station, you will simulate this skill. Make certain to state aloud each step as you simulate the actions including applicable safety precautions, indicated proper use of tools and when the opening is in safe condition and ready for entry.) This is a timed event. Expected time to complete skill(s) is 10 minutes.

To pass this station you must successfully complete 100% of the steps.

Evaluated Skill Items

Force Entry Into Structure	**1st Attempt Pass**	**1st Attempt Fail**	**2nd Attempt Pass**	**2nd Attempt Fail**
1. Wore complete personal protective ensemble, including eye protection.	☐	☐	☐	☐
2. Checked if door/window was unlocked.	☐	☐	☐	☐
3. Correctly forced door or lock. (Door only)	☐	☐	☐	☐
4. Correctly forced window lock or broke out glass. (Window only)	☐	☐	☐	☐
5. Identified wall support members & successfully breached wall. (Wall Only)	☐	☐	☐	☐
6. Carried forcible entry tools safely	☐	☐	☐	☐

Fire Fighter 1 Skills Set: Conduct a Search & Rescue in a Structure **Item S-2**

Reference:	NFPA 1010, 2024 Edition, Chapter 6, JPR 6.3.9 IFSTA, Essentials of Fire Fighting, 8th ed, ©2024, Pages 338-403, 454-503 IFSTA, Skill Sheets 11-2 through 11-7.
Evaluator Equipment Required:	Training dummy, ladder, safety rope & hardware, harness, belayer, & portable radio.
Candidate Equipment Required:	NFPA Compliant Personal Protective Clothing Ensemble & SCBA with PASS

Evaluator's Instructions to Candidates

(The Candidate will be evaluated on either Situation 1 or 2)

SITUATION 1: At this station, you will be required to demonstrate skills for conducting a search and rescue as a member of a team, in a vision-obscured environment within a structure. Your mask will be obscured for the duration of this skills evaluation. I will lead you to the start point and then tell you to begin. **(Continue to Situation 1A or 1B)**

- **SITUATION 1A: TRAPPED CIVILIAN:** You are a member of a search team conducting a primary search, looking for a civilian reported to be in a structure involved in fire. When you enter the structure with the (search line) (charged hose) and a partner, you should select a left or right hand search. You must search all areas until you locate the victim, maintaining communication with your partner. Once you have located the victim, exit the structure with your partner, bringing the victim with you. You may use whichever victim drag you deem appropriate to the situation.
- **SITUATION 1B: DOWNED FIREFIGHTER:** You are a member of a RIT Team, searching for a firefighter reported down in the structure. When you enter the structure, follow the (search line) (charged hose) with your team, until you locate the downed firefighter. You must assess the firefighter's condition and take appropriate actions. Once you have taken the appropriate actions, exit the structure with your team, bringing the downed firefighter with you. You may use whichever victim drag you deem appropriate to the situation.

SITUATION 2: At this station, you will be required to demonstrate skills for removing a victim from second story window of a structure as a member of a team. Your mask will NOT be obscured for this situation. Your partner will assist in raising the ladder and will then heal the ladder. You must ascend the ladder and remove the victim to the ground. A safety line will be attached to you in the event of a fall. Once you have properly raised the ladder to the window, I will attach the safety line and you may then ascend the ladder. The victim will be handed out the window to you. You may use whichever technique you deem appropriate to remove the victim. This is a timed event. Expected time to complete skill(s) is 20 minutes. To pass this station you must successfully complete 100% of the steps.

Evaluated Skill Items

General Skills - Conduct a Search & Rescue in a Structure **Situation 1:**	**1st Attempt** Pass	Fail	**2nd Attempt** Pass	Fail
1. Crawled low during search and rescue, maintaining left or right search mode.	☐	☐	☐	☐
2. Moved and/or searched behind furniture & searched closets and crawl spaces if applicable, completely searching one area before moving onto next.	☐	☐	☐	☐
3. Communicated with partner & maintained verbal contact.	☐	☐	☐	☐

CONTINUED ON PAGE 2

Skills Set: Conduct a Search & Rescue in a Structure

4. Located victim.	☐	☐	☐	☐
5. Determined if firefighter's SCBA was functioning. **(Situation 1B Only)**	☐	☐	☐	☐
6. Engaged RIT SCBA to provide air, if required. **(Situation 1B Only)**	☐	☐	☐	☐
7. Removed victim from structure.	☐	☐	☐	☐
8. Downed firefighter's SCBA mask seal was not compromised. **(Situation 1B Only)**	☐	☐	☐	☐
9. Assessed area to determine tenability.	☐	☐	☐	☐
10. If required, used SCBA correctly while exiting through restricted passages.	☐	☐	☐	☐

Situation 2:

1. Correctly raised ladder for window rescue situation.	☐	☐	☐	☐
2. Correctly positioned the victim for descent.	☐	☐	☐	☐
3. Safely descend the ladder with the victim	☐	☐	☐	☐

Evaluator Equipment Required:	Two radios (portable and/or base station).
Candidate Equipment Required:	NFPA-Compliant Personal Protective Clothing Ensemble, SCBA with PASS device.

Evaluator's Instructions to Candidates

At this station, you will be required to activate an emergency call for assistance, given simulated vision-obscured conditions, PPE, SCBA, and a portable radio, so that you can be located and rescued. You have found yourself separated from the rest of your team and are in immediate (simulated) danger. You have determined that you cannot safely self-rescue and must therefore initiate the call for rescue.
This is a timed event. Expected time to complete skill(s) is 2 minutes.
To pass this station you must successfully complete 100% of the steps.

Evaluated Skill Items

	1st Attempt		2nd Attempt	
Activate an Emergency Call for Assistance	**Pass**	**Fail**	**Pass**	**Fail**
1. Announced "MAYDAY" over the radio to clear the airwaves.	☐	☐	☐	☐
2. Provided information per local SOPs: LUNAR, WWA, UCANS	☐	☐	☐	☐
If AHJ SOP's require a different acronym than those listed that is acceptable, however it must include;				
--Name				
--Conditions/What Happened				
--Location				
--Air Supply				
--Needs				
3. Used other methods of emergency calls for assistance, activate PASS device	☐	☐	☐	☐
4. Found safe haven and conserved air.	☐	☐	☐	☐

Fire Fighter 1 Skills Set: Exit a Hazardous Area as a Team — Item S-4

Reference: NFPA 1010, 2024 Edition, Chapter 6, JPR 6.3.5
IFSTA, Essentials of Fire Fighting, 8th ed, ©2024, Pages 470-473, 485

Evaluator Equipment Required: Forcible entry tools, fire hose, search rope

Candidate Equipment Required: NFPA-Compliant Personal Protective Clothing Ensemble, Self Contained Breathing Apparatus, portable radio.

Evaluator's Instructions to Candidates

At this station, we will simulate that you have been conducting a search of a smoke-filled, burning building and the Incident Commander has ordered all personnel out of the building. You will be required to operate as part of a team, locate your guideline, and make your way out. As you make your way out, you will be required to communicate with your team mate(s) any hazard(s) you encounter as well as any possible safe haven(s) you locate in the event you cannot reach safety. I will lead you to your starting location at which point you will go on air. I will act as the Incident Commander and send you a simulated radio message ordering you out of the building, at which point you will begin.This is a timed event. Expected time to complete skill(s) is 10 minutes. To pass this station you must successfully complete 100% of the steps.

Evaluated Skill Items

Exit a Hazardous Area as a Team	**1st Attempt Pass**	**1st Attempt Fail**	**2nd Attempt Pass**	**2nd Attempt Fail**
1. Acknowledged receipt of the evacuation order.	☐	☐	☐	☐
2. Operated as a team, maintaining contact throughout.	☐	☐	☐	☐
3. Located & followed guideline out of the structure.	☐	☐	☐	☐
4. Maintained seal on mask, conserved air, exited prior to depleting air supply.	☐	☐	☐	☐
5. Evaluated area for potential hazard(s) and communicated information to team.	☐	☐	☐	☐
6. Located potential safe haven(s) and communicated information to team.	☐	☐	☐	☐

Evaluator Equipment Required:	Fire Apparatus, reflective vest, simulated traffic lane, traffic control devices (cones)
Candidate Equipment Required:	NFPA-Compliant Personal Protective Clothing Ensemble.

Evaluator's Instructions to Candidates

At this station, you will be required to respond on an apparatus, as a member of its crew, to the simulated scene of a motor vehicle accident. Upon arrival, you will dismount the apparatus, set out traffic control devices to establish a safe work area in which to conduct vehicle extrication operations, and then prepare to participate in those operations.
I will play the role of your company officer.

This is a timed event. The maximum time to complete these skills is 5 minutes.
To pass this station, you must successfully complete 100% of the steps.

Evaluated Skill Items

Establish & Operate Work Areas at Emergency Scenes	**1st Attempt** Pass	Fail	**2nd Attempt** Pass	Fail
1. Donned complete personal protective clothing	☐	☐	☐	☐
2. Safely dismounted the apparatus	☐	☐	☐	☐
3. Deployed traffic control devices appropriately.	☐	☐	☐	☐

Fire Fighter 1 Skills Set: Connect Fire Dept. Pumper to a Water Supply **Item E-3**

Reference:	NFPA 1010, 2024 Edition, Chapter 6, JPR 6.3.15 IFSTA, Essentials of Fire Fighting, 8th ed., ©2024, Pages 591-597, 652-659 IFSTA Firefighter I Skill Sheets 13-10 through 13-14
Evaluator Equipment Required:	Pumper apparatus with operator; hydrant; two drafting tanks; various hose, adapters, and appliances.
Candidate Equipment Required:	NFPA-Compliant Personal Protective Clothing Ensemble.

Evaluator's Instructions to Candidates

At this station, you will be required to connect a pumper to a water supply, either hydrant or static water source.
HYDRANT: Working as a member of a team, you will complete the pumper to hydrant connection for both a forward and reverse lay. Additionally, you will make the hydrant to pumper connection using a soft-sleeve intake supply hose. You must operate the hydrant safely and correctly. You will have all the necessary hose adapters and other tools available, which are located (here).
STATIC WATER SOURCE: As a member of a team, you will deploy two (2) portable water tanks and equipment necessary to transfer water between them. You will connect all hose and equipment necessary to draft water from one of the tanks to the pumper. You will not need to actually move water, only to deploy the equipment and establish all connections for the driver/operator to do so.

This is a timed event. Expected time to complete skill(s) is 10 minutes. To pass this station you must successfully complete 100% of the steps.

Evaluated Skill Items

	1st Attempt		2nd Attempt	
Connect a Fire Dept. Pumper to Water Supply				
Hydrant Connection:	**Pass**	**Fail**	**Pass**	**Fail**
1. Hand laid supply hose (forward, reverse, and soft sleeve).	☐	☐	☐	☐
2. Connected pumper to hydrant (forward & reverse lays, soft sleeve).	☐	☐	☐	☐
3. Flushed hydrant before making first connection.	☐	☐	☐	☐
4. Fully opened and closed hydrant.	☐	☐	☐	☐
Drafting from a Static Water Source:				
1. Deployed portable water tanks.	☐	☐	☐	☐
2. Deployed equipment to transfer water between tanks.	☐	☐	☐	☐
3. Connected hard suction (& strainer) to pumper.	☐	☐	☐	☐

Evaluator Equipment Required:	Terrain model, hand tools, pumper/brush truck, attack/forestry hose & nozzle.
Candidate Equipment Required:	NFPA-Compliant Personal Protective Clothing Ensemble or Wildland Firefighting Ensemble.

Evaluator's Instructions to Candidates

At this station, you will be given a simulated ground cover fire scenario. I will provide to you those key points that will assist you in verbalizing techniques to combat the ground cover fire. You will verbalize to me any exposure threats, how you would protect those exposures. You will describe to me the construction of a fire line and the steps necessary to maintain it. You must recognize any threats to personnel safety and explain when a retreat should be ordered. You will then verbalize and demonstrate how you would extinguish a ground cover fire using this (pumper) (grass truck). This is a timed event. Expected time to complete skill(s) is 5 minutes. To pass this station you must successfully complete 100% of the steps.

Evaluated Skill Items

Combat a Ground Cover Fire	**1st Attempt**		**2nd Attempt**	
	Pass	**Fail**	**Pass**	**Fail**
1. Determined the exposure threats.	☐	☐	☐	☐
2. Protected exposures.	☐	☐	☐	☐
3. Constructed a fire line or extinguished the fire with hand tools.	☐	☐	☐	☐
4. Maintained integrity of established fire lines.	☐	☐	☐	☐
5. Suppressed ground cover fire using water.	☐	☐	☐	☐

Candidate's name: _____ **Station: Pass** ☐ **Fail** ☐

Evaluator Equipment Required: Single or Multi-gas detector

Candidate Equipment Required: NFPA-Compliant Personal Protective Clothing Ensemble with SCBA

Evaluator's Instructions to Candidates

At this station, you will be asked to conduct air monitoring to determine whether the atmosphere is safe to search. You must energize the equipment and run any required setup procedures on the equipment. You will then monitor the air quality in and around the search area to determine if the atmospheric conditions are safe or potentially hazardous. You will identify any cause for alarm activation and document all findings. You will then turn off the air monitor and decontaminate it. This is a timed event. Expected time to complete skill(s) is 10 minutes. To pass this station you must successfully complete 100% of the steps.

Evaluated Skill Items

Operate an Air Monitoring Instrument	**1st Attempt**		**2nd Attempt**	
	Pass	**Fail**	**Pass**	**Fail**
1. Selected the proper detection, monitoring, or sampling method and equipment	☐	☐	☐	☐
3. Turned on the monitor.	☐	☐	☐	☐
4. Performed initial inspection to ensure that the monitor is serviceable.	☐	☐	☐	☐
5. Performed a “fresh air” calibration of the monitor prior to entry.	☐	☐	☐	☐
6. Monitored the area with instrument.	☐	☐	☐	☐
7. Recognized and identified the cause for all alarms.	☐	☐	☐	☐
8. Reported results according to AHJ requirements.	☐	☐	☐	☐

Evaluator's Signature: **Date:**

Fire Fighter 1 Skills Set: Overhaul a Fire Scene — Item O-2

Reference: NFPA 1010, 2024 Edition, Chapter 6, Job Performance Requirement 6.3.13
IFSTA, Essentials of Fire Fighting, 8th ed., ©2024, Pgs 608-627, 667-681, 758-764, 773-784 IFSTA Firefighter I Skill Sheet 15-1

Evaluator Equipment Required: Hand tools for overhaul, simulated burn room, simulated evidence, handline or pressurized water extinguisher

Candidate Equipment Required: NFPA-Compliant Personal Protective Clothing Ensemble w/SCBA

Evaluator's Instructions to Candidates

At this station, you will be required to demonstrate the overhaul of a fire scene so that all hidden fires are exposed and extinguished. Full Personal Protective Clothing ensemble, including SCBA, must be worn during this evaluation. You are responsible for recognizing and preserving areas of fire origin and/or evidence of arson. Void spaces should be exposed while maintaining structural integrity. Water must be applied for maximum effectiveness and the entire structure should be evaluated for complete extinguishment. This is a timed event. Expected time to complete skill(s) is 10 minutes. To pass this station you must successfully complete 100% of the steps.

Evaluated Skill Items

Overhaul a Fire Scene	**1st Attempt Pass**	**1st Attempt Fail**	**2nd Attempt Pass**	**2nd Attempt Fail**
1. Selected appropriate hand tools for overhaul tasks.	☐	☐	☐	☐
2. Advanced attack line to overhaul area.	☐	☐	☐	☐
3. Exposed void spaces in floors, ceilings, & walls with hand tools, without compromising structural integrity.	☐	☐	☐	☐
4. Exposed hidden fires and applied water for maximum effectiveness.	☐	☐	☐	☐
5. Recognized and preserved obvious signs of area of origin or evidence of arson.	☐	☐	☐	☐
6. Evaluated area for complete extinguishment.	☐	☐	☐	☐

Candidate's name: _____ **Station: Pass** ☐ **Fail** ☐

Notes (please includes comments/explanation for failure):

Evaluator's Signature: **Date:**

Fire Fighter 1 Skills Set: Conserve Property (Salvage) **Item O-3**

Reference:	NFPA 1010, 2024 Edition, Chapter 6, Job Performance Requirement 6.3.14 IFSTA, Essentials of Fire Fighting, 8th ed., ©2024, Pages 746-755 IFSTA Firefighter I Skill Sheets 15-3 through 15-11
Evaluator Equipment Required:	Furniture, salvage covers, two (2) long pike poles, squegee or vacuum, tools and materials to cover openings
Candidate Equipment Required:	NFPA-Compliant Personal Protective Clothing Ensemble, SCBA with PASS device.

Evaluator's Instructions to Candidates

At this station, you will be required to conduct salvage operations to conserve property, as a member of a team. Full Personal Protective Clothing must be worn during this evaluation. You will deploy covering materials; remove debris; construct water chutes and catchalls; and roll or fold salvage covers as directed, or you will be tasked with deactivating a given sprinkler system. Additionally, you will be responsible for recognizing and preserving areas of origin and/or evidence or arson as well as closing building openings. This is a timed event. Expected time to complete skill(s) is 20 minutes. To pass this station you must successfully complete 100% of the steps.

Evaluated Skill Items

	1st Attempt Pass	1st Attempt Fail	2nd Attempt Pass	2nd Attempt Fail
Conserve Property (Salvage)				
1. Arranged furnishings in a clustered fashion.	☐	☐	☐	☐
2. Deployed rolled or folded salvage cover**:** • Two-firefighter spread.	☐	☐	☐	☐
3. Rolled & folded salvage covers **(One of the following):** • Rolled a salvage cover for a one-firefighter spread. • Folded a salvage cover for a one-firefighter spread. • Folded a salvage cover for a two-firefighter spread.	☐	☐	☐	☐
4. Constructed a water chute.	☐	☐	☐	☐
5. Constructed a catchall.	☐	☐	☐	☐
6. Removed water (using squeegee, vacuum, etc.)	☐	☐	☐	☐
7. Covered building openings (doors; windows; and roof and floor openings.)	☐	☐	☐	☐
8. Separated & removed charred material to a safe location.	☐	☐	☐	☐
Conserve Property (Sprinklers)				
1. Confirmed order with officer to operate valve.	☐	☐	☐	☐
2. Closed valve.	☐	☐	☐	☐
3. Selected an appropriate device and stopped water flow from a sprinkler head.	☐	☐	☐	☐

Candidate's name: _____ **Station: Pass** ☐ **Fail** ☐

Fire Fighter 1 Skills Set: Clean & Check Ladders, Ventilation Equipment, SCBA, Ropes, Salvage Equipment & Hand Tools

L-1

Reference:	NFPA 1010, 2024 Edition, Chapter 6, JPR 6.5.1 IFSTA, Essentials of Fire Fighting, 8th ed, ©2024, Pages 239-245, 260-262, 302-307, 320, 340-367, 403-406, 433-445, 523, 772-798 IFSTA Skill Sheets 6-7 through 6-10, 8-1, 9-1, 10-1, and 15-12.
Evaluator Equipment Required:	Cleaning Supplies, ladder, saw, ventilation fan, SCBA with Cylinder, rope, tarp, hand tools
Candidate Equipment Required:	None

Evaluator's Instructions to Candidates

At this station, you will be required to service, clean, and check various pieces of equipment. I will select TWO items for you to service. All the necessary cleaning supplies needed to accomplish your task are provided. You must verbalize to me all the components that you are checking so that you may receive complete credit. I will select which equipment you will service. This is a timed event. Expected time to complete skill(s) is 15 minutes. To pass this station you must successfully complete 100% of the steps.

Evaluated Skill Items

Clean and Check Ladders, Ventilation Equipment, Self-Contained Breathing Appratus, Ropes, Salvage Equipment & Hand Tools	**1st Attempt**		**2nd Attempt**	
	Pass	**Fail**	**Pass**	**Fail**
Ladders:				
1. Checked all components for missing parts or damage.	☐	☐	☐	☐
2. Checked need for lubrication of movable parts (if applicable).	☐	☐	☐	☐
3. Checked for loose rungs.	☐	☐	☐	☐
4. Cleaned equipment with soapy water & scrub brush if necessary.	☐	☐	☐	☐
5. Checked halyard & pulleys (if applicable).	☐	☐	☐	☐
Ventilation Equipment:				
1. Examined ventilation equipment for damaged or missing components.	☐	☐	☐	☐
2. Checked oil and gasoline supply. (Ventilation saw & PPV fan)	☐	☐	☐	☐
3. Checked cord and switch. (Smoke ejectors)	☐	☐	☐	☐
4. Cleaned equipment with soapy water & scrub brush if necessary.	☐	☐	☐	☐
5. Checked blade. (Ventilation saw)	☐	☐	☐	☐
Salvage Tarps:				
1. Examined salvage cover for damage, dirt, & debris.	☐	☐	☐	☐
2. Cleaned equipment with soapy water & scrub brush if necessary.	☐	☐	☐	☐
3. Allowed salvage cover to air dry completely.	☐	☐	☐	☐

CONTINUED ON PAGE 2

Fire Fighter 1 Skills Set: Item 28 (CONTINUED)

Skills Set: Clean & Check Ladders, Ventilation Equipment, SCBA, Ropes, Salvage Equipment & Hand Tools

SCBA:

1. Verified cylinder has current hydrostatic date.	☐	☐	☐	☐
2. Verified cylinder was full within 10% of capacity. Replaced cylinder if not full.	☐	☐	☐	☐
3. Checked all components for cleanliness.	☐	☐	☐	☐
4. Cleaned equipment with soapy water & scrub brush if necessary.	☐	☐	☐	☐
5. Checked harness system for damage.	☐	☐	☐	☐
6. Checked face piece (including nose cup valve discs) & head harness straps	☐	☐	☐	☐
7. Operated bypass valve.	☐	☐	☐	☐
8. Checked all connections for leaks.	☐	☐	☐	☐
9. Turned cylinder off, bled pressure from system, listened for low pressure alarm.	☐	☐	☐	☐
10. Returned all components & straps to a state of readiness.	☐	☐	☐	☐

Rope:

1. Examined rope surface for cuts, stains, fraying.	☐	☐	☐	☐
2. Examined inner components by feeling for thinness or bunching.	☐	☐	☐	☐
3. Cleaned rope using clear water by hand, rope washer, or front loading washer.	☐	☐	☐	☐
4. Allowed rope to air completely.	☐	☐	☐	☐
5. Returned rope to storage bag.	☐	☐	☐	☐

Hand Tools:

1. Examined handles for damage (e.g., cracks, splits, splinters, etc.)	☐	☐	☐	☐
2. Examined cutting or working component for damage.	☐	☐	☐	☐
3. Checked tool head for tightness.	☐	☐	☐	☐
4. Cleaned equipment with soapy water & scrub brush if necessary.	☐	☐	☐	☐

Replace SCBA Cylinders:

1. Closed main line valve & bled pressure before disconnecting cylinder.	☐	☐	☐	☐
2. Removed empty cylinder & replaced it with a full cylinder.	☐	☐	☐	☐
3. Checked cylinder valve opening & high pressure hose for debris.	☐	☐	☐	☐
4. Confirmed “O” ring was in place before connecting the cylinder	☐	☐	☐	☐
5. Opened cylinder valve, verified pressure, and checked for leaks.	☐	☐	☐	☐
6. Closed cylinder valve and bled off air.	☐	☐	☐	☐
7. Turned off the PASS alarm.	☐	☐	☐	☐

NFPA 1010 FIRE SUPPRESSION VERIFICATION FORM FIRE FIGHTER I, FIRE FIGHTER II

This Fire Suppression Verification Form, fully and accurately completed, shall be administered as part of the Kansas Fire & Rescue Training Institue Certification process to indicate the Certification Canidate has met the Job Performance Requirements (JPRs) for the specified objectives for NFPA 1010, *Standard for FIre Fighter Professional Qualifications, 2024 Edition.*

(Please Print Legibly):

Last Name	First Name	MI
Name of Fire Department / Organization		
Birthdate		

INSTRUCTIONS: Complete the appropriate section(s) below based on the Certification Canididate's intended level of training and ceritification.

Fire Fighter I Local Verification

Objective #	Job Performance Requirement	Auditor's Intials	Date
JPR # 6.3.10	Attack an Interior Structure Fire		
JPR # 6.3.7	Attack a Passenger Vehicle Fire		
JPR # 6.3.8	Extinguish Fires in - Exterior Class A Material		
JPR # 6.3.16	Extinguish Incipient Class A, B, C Fires		
JPR # 6.3.19	Combat a Ground Cover Fire		

Fire Fighter II Local Verification

Objective #	Job Performance Requirement	Auditor's Intials	Date
JPR # 7.3.2	Coordination of Interior Fire Attack		
JPR # 7.3.3	Utilize a Thermal Imager		

This form is NOT valid withour the signature of the Department Fire Chief, Fire Science Community College Program Director, or other Designee.

Affirmation of Signers: This is to attest that the Certification Canididate named above has successfully completed all Job Performance Requirements (JPRs) for each respective Fire Suppression Evolution, during formal training conducted in accordance with NFPA 1403, *Live Fire Training Evolutions, 2018 edition*.

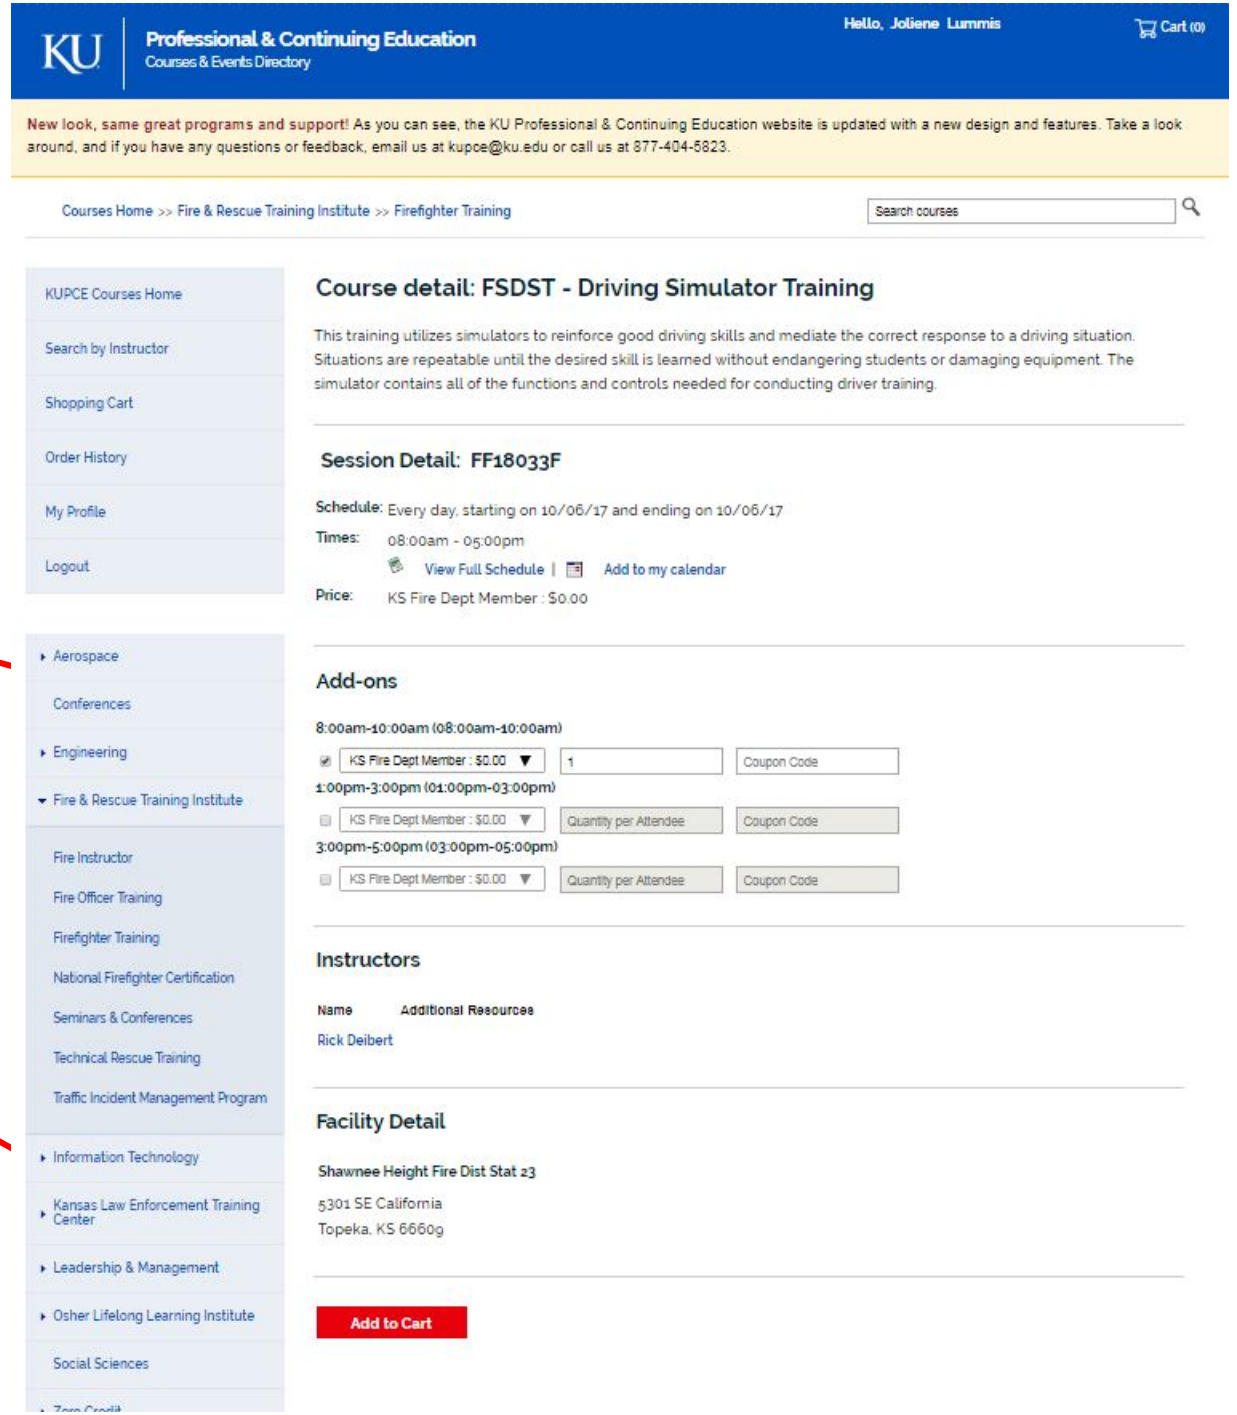
Emergency Vehicle Driver Training - VFIS

Participants in this course will have the opportunity to gain and/or verify a broad range of competencies associated with emerger vehicle driving. These competencies include basic understanding of emergency vehicle operations as well as the skills necessary

- **If required, choose the time you want to attend the course.**
- **Click** **Add to cart**

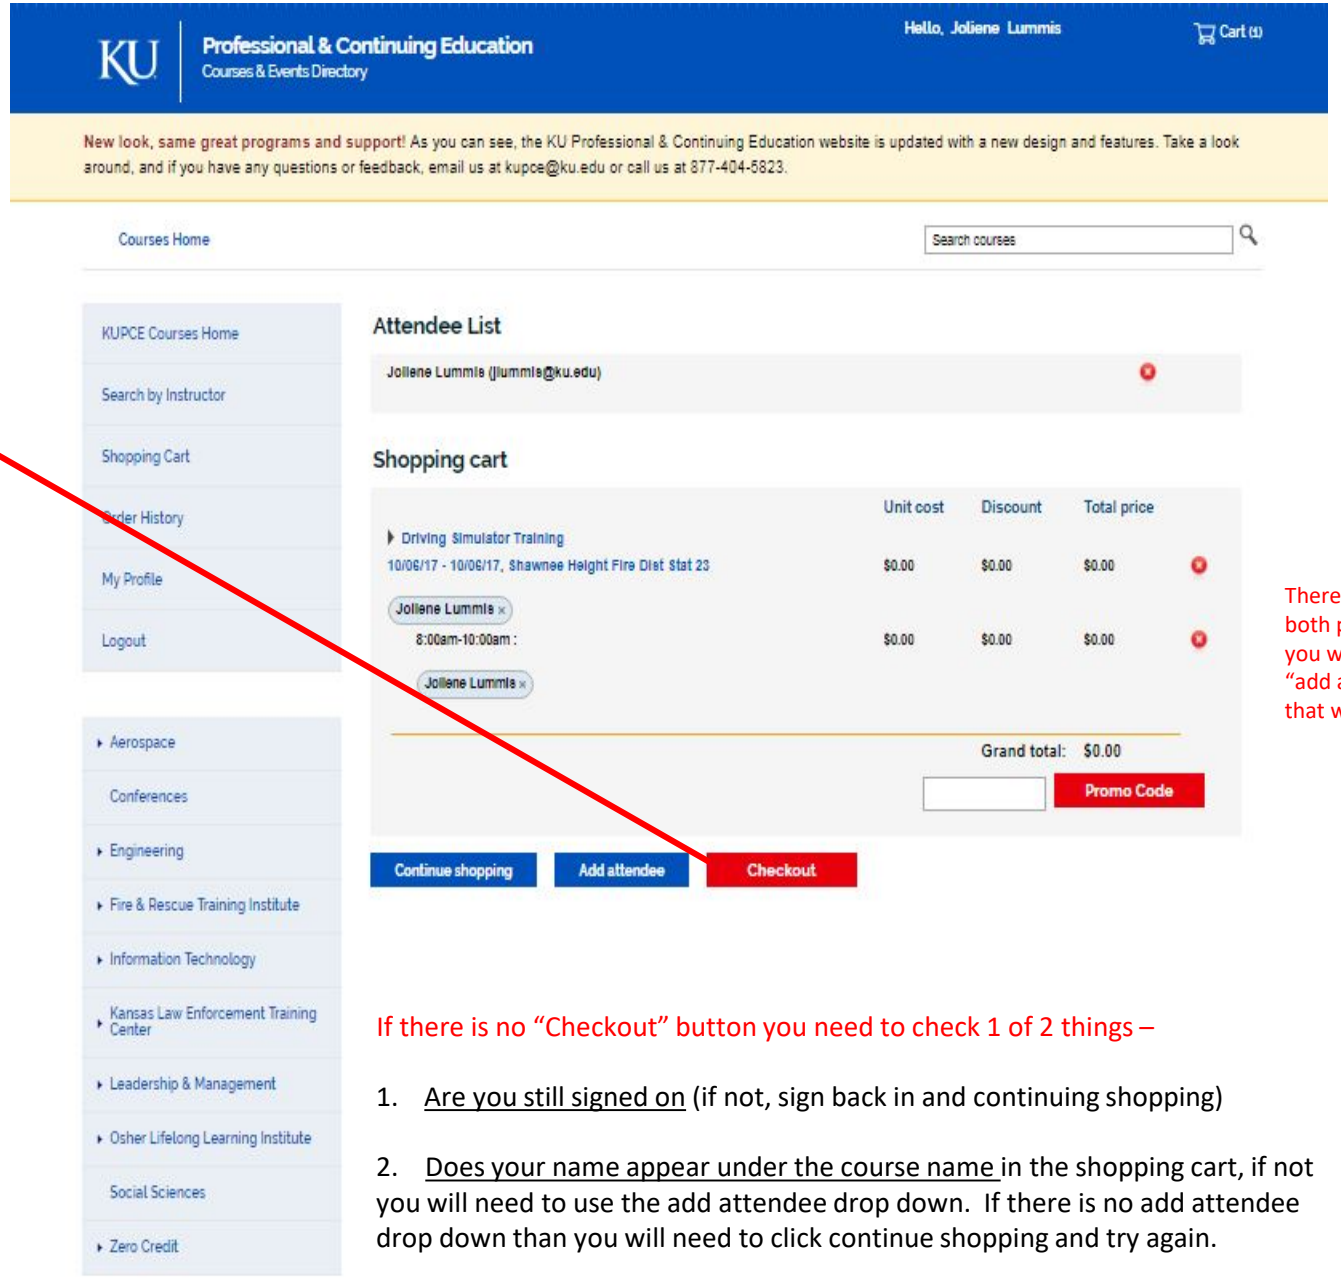


Click

Checkout

Note:

If you do not see the "Checkout" button you are not signed on or something went wrong.



There should be a name in both places. If there is not you will need to use the "add attendee" drop down that will appear.

If there is no "Checkout" button you need to check 1 of 2 things –

1. Are you still signed on (if not, sign back in and continuing shopping)

2. Does your name appear under the course name in the shopping cart, if not you will need to use the add attendee drop down. If there is no add attendee drop down than you will need to click continue shopping and try again.
