Fire Service Training Commission

REGULAR MEETING AGENDA AND ANNOUNCEMENT

Kansas Fire & Rescue Training Institute

The University of Kansas

Wednesday, May 13, 2026

10:00 AM

The Kansas Fire Service Training Commission will meet via Zoom Wednesday, May 13, 2026 at 10:00. Teams information is below:

Microsoft Teams meeting
Join: https://teams.microsoft.com/meet/240218245032364?p=VETrMhfxXYmhQlW16z
Meeting ID: 240 218 245 032 364
Passcode: 8vX3c9Yc

The following topics will be subject to Fire Service Training Commission consideration, discussion, approval, or other action. All items on the agenda are set for possible action.

The order of the Agenda may be changed by order of the Fire Service Training Commission.

1. **Call to Order/Roll Call/Affirmation of Quorum**

2. **Approval of Minutes** of February 11, 2025 Kansas Fire Service Training Commission Meeting

3. **Public Forum**- Public comments are limited to three-minutes. Persons may submit written comments of any length for the Fire Service Training Commission files. Those wishing to address the Commission should notify the Chair, Vice Chair, or the Director of KFRTI prior to the meeting. At the conclusion of the public forum, individual Fire Service Training Commission members may respond to comments made by those individuals who have addressed the Commission and m ay ask staff to review a matter and place it on a future agenda. However, the Fire Service Training Commission members may not discuss or take action on a matter raised during a call to the public, that is not already on the agenda, and are not obligated to comment upon materials or presentations made by the public.

4. **Consent Agenda**- The Consent Agenda contains items which might require action by the Fire Service Training Commission but are generally routine items not requiring the Commission's discussion. Usually, a single motion will approve all items on

the Consent Agenda, including any resolutions. However, a Fire Service Training Commission member may remove any item on the consent agenda and that item will be discussed and voted upon separately.

a. There are no items on the Consent Agenda

5. **Chair's Report**

6. **Vice Chair's Report**

7. **Director's Report**

8. **Business**

   a. **Old Business: FSTC Appointment Legislation (K.S.A. 76-327d)**
   b. **New Business**

8. **Future Agenda Items**

9. **Adjournment**

Fire Service Training Commission

Minutes

Kansas Fire & Rescue Training Institute

The University of Kansas

Wednesday, February 11, 2026

10:00 AM

Attending Commission Members: Darin Myers, Mike Roosevelt, Kevin Webster, Pat Dunn, Jason Lankas, Dan Romine, Bill Waln, Bonnie Johnson

Absent Commission Members: Mark Engholm, Justin Ducey, Eric Voss,

Attending Jayhawk Global Staff: Jenn Johnson, John Knispel, Joliene Lummis, Erica Henderson, Amber Wells, Ben Jones, Josh Casey, Matt Breininger, Lucas Everett, Ronnie Sellens, Mike Brockwell

Guests: Rich Watson

1. **Call to Order/Roll Call/Affirmation of Quorum:** 10:02am – Quorum met

2. **Approval of Minutes** of November 12, 2025, Kansas Fire Service Training Commission Meeting

   Motion: Jason Lankas
   Second: Pat Dunn

   Passed unanimously

3. **Public Forum**- Public comments are limited to three-minutes. Persons may submit written comments of any length for the Fire Service Training Commission files. Those wishing to address the Commission should notify the Chair, Vice Chair, or the Director of KFRTI prior to the meeting. At the conclusion of the public forum, individual Fire Service Training Commission members may respond to comments made by those individuals who have addressed the Commission and may ask staff to review a matter and place it on a future agenda. However, the Fire Service Training Commission members may not discuss or take action on a matter raised during a call to the public that is not already on the agenda and are not obligated to comment upon materials or presentations made by the public.

4. **Consent Agenda**- The Consent Agenda contains items which might require action by the Fire Service Training Commission but are generally routine items not requiring the Commission's discussion. Usually, a single motion will approve all items on

the Consent Agenda, including any resolutions. However, a Fire Service Training Commission member may remove any item on the consent agenda and that item will be discussed and voted upon separately.

a. There are no items on the Consent Agenda

5. **Chair Report:** Fire Chief 101 course, good support to have it again. LODD over the weekend. Bill 354 introduced by Senator Owens, Senator hoping to put it on hearing for next week.

6. **Vice Chair's Report:** IAAI held conference in Wichita. Midwest Criminal Justice Institute signed 4-year contract for future conferences.

7. **Director's Report:** See attached report

8. **Mid-Year Financials as reported by John Knipsel**

   Motion: Mike Roosevelt
   Second: Pat Dunn

   Passed unanimously

9. **Business**

   a. **Old Business:**

      - **Status of letter –** draft needs to be done from commission so it is ready when it is needed.
      - There are several bills in the Legislative session regarding firefighting that may or may not affect commission. Bill 2024 – reimbursement for cancer screening, KPERS 2130 bill regarding disbursement. 2522 emergency lighting.

   b. **New Business**

      - Change date of November meeting - send out a poll to get a majority vote.
      - On behalf of Mark Engholm – when scheduling training, can you not schedule on holiday's. KFRTI does try to take holidays under consideration.
      - Send reminders to the organizations that have members expiring in 2026

10. **Future Agenda Items**
    Elections

11. **Adjournment**
    Motion – Jason Lankas
    2nd Kevin Webster

KFRTI State of the Institute – February 2026

(Director's Report)

Introduction

Kansas Fire & Rescue Training Institute (KFRTI) continues to change and evolve. We are adding new staff positions, new staff, new courses, new certifications. Whew.

Staff Changes

In late March we had the opportunity to present to the HR and Strategic Hiring Committee, outlining our short- and long-term staffing plans. As you are aware the demand for state-wide training and certification has grown and we anticipate that growth will continue. In order to meet this need KFRTI needed to grow as well. Fortunately our presentation was well received and all of our immediate asks were approved.

The University is not on a true hiring freeze but all HR actions are being given extra scrutiny and it can sometimes be difficult to tell our unique funding story when we are part of such a big machine.

Thanks so much to our HR Partner Cody Brown for his help in getting us some important face time with the decision makers at the University level and to our Finance Director John Knipsel who ran numbers, built spreadsheets, and talked through all the things.

New Hires

We have also added two Administrative Associates, one to fill an existing vacancy and one in preparation for the promotions we planned.

Laura Montgomery joined us in April from the world of pharmacy, bringing excellent customer service with her. Laura is a Jayhawk from Pittsburgh, PA. She is active on the Lawrence St Patrick's Day Parade committee, raising money for Douglas County children's charities. She is an excellent dog aunt and she has some human nieces and nephews, too.

Kelly Lewis will be joining us Tuesday May 12 as the new Senior Administrative Associate for Certification, just in time for Strategic Planning.

KFRTI is going be sharing a media and marketing team with Extended Learning. Justin Gilliand joined our team as the Digital Media Coordinator over a year ago. You have probably seen his images on our Facebook feed and in the new photos in our new lobby. Gwen Akins Conway will be joining the team next week as a graphic designer and Marketing Manager Loree Terry will complete the team. The addition of this marketing team should strengthen our external communication, and a newsletter launch is already scheduled for later in May.

Promotions

In the end of March, we announced that Amber Wells had accepted the position of Assistant Director Operations. We captured Amber as an Administrative Associate and knew she would move up quickly. Amber is a Kansas native and began her fire service career with Wakarusa Township Fire Department and continued to International Association of Fire Chiefs where she was the Director of Wildland Programs. Amber is married with two kids and two bonus kids, five grandchildren, and three doggos.

Staff Promotions

New Title	Employee	Prior Title
Certification Program Manager	Erica Henderson	Certification Program Coordinator
Certification Program Coordinator	Nicole Bettes	Senior Administrative Associate, Certification
Transportation Program Manager	Ronnie Sellens	Transportation Program Coordinator
Officer Manager	Joliene Lummis	Senior Administrative Associate
Officer Program Coordinator	Brad Shubert	Part-time Officer Program Coordinator
Instructor Program Coordinator	Rob Dusenbury	Part Time Education Specialist

New Positions

We are currently advertising for two additional full time program coordinators. These are both potentially fully remote positions.

Hazmat/Special Operations Program Coordinator Driver Operator Program Coordinator.

Program Updates

We are piloting a hybrid Live Fire Instructor course with 13 students, including the Fire Chief, from Pittsburg, Kansas. Part 1 includes an online course delivered through KU's learning management system (Canvas) and reviewed by the Center for Online Distance Learning's Quality Matters rubric for best practices in online course delivery. Part 2 is an in-person, two-day training event using best practices in competency-based education to train firefighters how to safely deliver live fire training.

Incident Safety Officer has been accredited by both IFSAC and ProBoard and we plan to begin offering this course and certification summer 2026.

The Special Operations program staff spent the week of May 6 at Crisis City in Salina assisting with instruction at the 2026 Kansas Technical Rescue Conference.

Mike Brockwell, Firefighter Program Manager, has put together a comprehensive KFRTI Firefighter Program Course Catalog. This new document (attached) gives a great overview of our current programs and those in development.

Our Certification Program staff is continuing the transition to computer-based testing with the Kite platform. We plan to be 100% computer based for all certification testing by January 1 of 2027.

Certification fees are increasing from $30 to $35 as of July 1, 2027.

Students must be registered with an Enrole profile and payment or department billing form prior to any exam. All registrations and payments must be completed through Enrole via credit card. Registration for test site must be completed a minimum of 7 business days prior to event.

KFRTI does not invoice individuals. Fees may be invoiced to organizations ONLY if a Purchase Order or Departmental Billing Form from that organization is provided to the Institute, via email, a minimum of 7 business days prior to the event. After receipt, the Institute will manually register the students and invoice the organization. Please call KFRTI at 866-804-8841 to utilize this option.

As of January 1, 2027, students who do not meet the above criteria will not be allowed to test.

Events

KFRTI hosted an Open House and Crawfish Boil on Friday May 1st to show off our new space and thank our friends and coworkers who were so patient while we were homeless during the remodel.Asst Director Ken Fowler and Program Coordinator Lucas Everett brought a true taste of Louisiana to Lawrence, even flying in live crawfish. We had so much fun we plan to do it again next year.

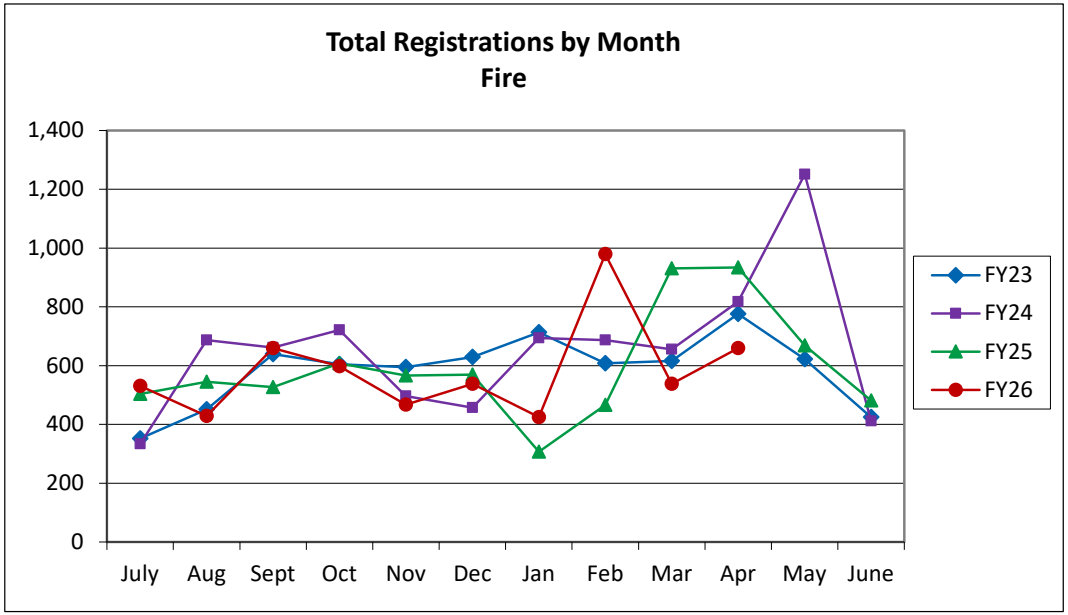

Thanks to those of you who came and celebrated with us.

Kansas Fire & Rescue Training Institute

KFRTI

Program Course Catalog

Course Descriptions & Delivery Formats

NFPA 1010 (2024) Aligned | IFSAC Defensible

2026

How to Use This Catalog

This catalog presents all KFRTI program offerings across two delivery formats. Each entry includes a course overview, NFPA standard alignment, prerequisites, and delivery format details.

Legend	
LE	Lucas Everett - Primary Instructor
TBD	Instructor Not Yet Assigned
LE/TBD	Shared - Pending Instructor Assignment
RED	Course Needs Development
NEW	Coming Soon - Under Development
NFPA?	NFPA chapter alignment under research - will be updated

Delivery Formats

In-Person: Traditional classroom instruction combined with hands-on skills sessions and/or live fire evolutions. All content is delivered on-site under direct instructor supervision.

Hybrid: Self-paced online modules covering all cognitive/didactic content, followed by defined in-person skills day(s) for practical competency verification. Aligned to KFRTI hybrid delivery model.

Program Staff

Role	Name	Initials
Fire Program Manager	**Michael Brockwell**	**BM**
Fire Program Coordinator	**Lucas Everett**	**LE**
Fire Program Coordinator	*Position Vacant*	**TBD**

Note: *One coordinator position is currently vacant. Courses previously assigned to that position are marked TBD pending reassignment.*

HAZARDOUS MATERIALS

Hazmat Awareness

NFPA Alignment: NFPA 1010 (2024), Ch. 4 (General Requirements) / NFPA 472

Prerequisites: None

In-Person

This course provides entry-level emergency responders with foundational knowledge of hazardous materials incidents. Students will learn to recognize and identify hazardous materials, understand the role of first responders at the awareness level, and initiate protective actions including notification and scene isolation. Content is delivered in a traditional classroom setting with scenario-based tabletop exercises.

Delivery:
In-person classroom

Hybrid

This course delivers the same awareness-level content through a self-paced online learning environment, with a single defined in-person session for scenario review and competency verification. Students complete didactic modules covering recognition, identification, and protective actions online before attending the in-person day.

Delivery:
Self-paced online + 1 in-person day

Hazmat Operations

NFPA Alignment: NFPA 1010 (2024), Ch. 4 (General Requirements) / NFPA 472

Prerequisites: Hazmat Awareness

In-Person

Building on Hazmat Awareness, this course prepares students to operate at the operations level at hazardous materials incidents. Students will learn defensive response actions, PPE selection, decontamination procedures, and incident management principles within a structured classroom and practical skills environment.

Delivery:
In-person classroom + practical skills sessions

Hybrid

The hybrid version delivers all didactic content including defensive response, PPE, and decon through self-paced online modules. Students attend defined in-person skills days to complete hands-on competency requirements before certification.

Delivery:
Self-paced online + defined in-person skills days

FIREFIGHTER CERTIFICATION

Firefighter I

NFPA Alignment: NFPA 1010 (2024), Ch. 6 (Firefighter I)

Prerequisites: None

In-Person

This course provides the knowledge and skills required to meet the professional qualifications for Firefighter I as defined by NFPA 1010 (2024). Topics include fire behavior, PPE, SCBA, hose operations, ladders, forcible entry, ventilation, and basic rescue operations. Instruction is delivered through classroom lecture, skills stations, and live fire training evolutions.

Delivery:
In-person classroom + skills stations + live fire evolutions

Hybrid

The hybrid Firefighter I course delivers all cognitive content through a structured self-paced online platform. Students complete didactic modules covering NFPA 1010 Chapter 6 knowledge objectives before attending defined in-person days for skills verification, practical stations, and live fire training evolutions.

Delivery:
Self-paced online + defined in-person skills days + live fire evolutions

Pathways to Certification

NFPA Alignment: NFPA 1010 (2024), Ch. 6 (Firefighter I) — All JPRs

Prerequisites: Department roster listing; ICS-100 & ICS-700; physician-approved physical

Hybrid

A modular, progressive pathway to NFPA 1010 (2024) Firefighter I certification designed for Kansas volunteer and combination department members. The program consists of 12 core modules (minimum 191 contact hours) and allows students to contribute to their department from day one through two intermediate operational credential levels. Students complete all NFPA 1010 Chapter 6 JPRs through a dual-signature Task Book format and are eligible for IFSAC and Pro Board accreditation upon full completion. Hazardous Materials, Wildland Firefighting, Vehicle Extrication, and Tender Driver/Operator training are delivered as separate KFRTI standalone courses and are not embedded in this program.

Delivery:
Self-paced online modules (Canvas LMS) + scheduled in-person practical days + live fire evolutions

Intermediate Pathways: P-1 Support Personnel (Modules 1–3 + ICS-100/700) | P-2 Exterior Firefighting (Modules 1–6, 8–10) | Full Certification: All 12 Modules + Live Burns + ICS-100/700

Accreditation: IFSAC and Pro Board accreditation eligible upon full completion

Textbook: Essentials of Fire Fighting, IFSTA 4th Ed. (ISBN: 978-0-87939-762-3)

Firefighter II

NFPA Alignment: NFPA 1010 (2024), Ch. 7 (Firefighter II)

Prerequisites: Firefighter I (or KFRTI Local Verification Form)

In-Person

This course builds on Firefighter I competencies and prepares students to meet the professional qualifications for Firefighter II as defined by NFPA 1010 (2024). Topics include incident command, pre-incident planning, water supply, advanced suppression tactics, vehicle extrication, and public education. Instruction combines classroom delivery with extensive practical application.

Delivery:
In-person classroom + skills sessions + live fire evolutions

Hybrid

The hybrid Firefighter II course covers all NFPA 1010 Chapter 7 knowledge requirements through self-paced online modules. Students attend defined in-person days to complete skills verification, practical scenarios, and live fire requirements.

Delivery:
Self-paced online + defined in-person skills days + live fire evolutions

Firefighter Skills

NFPA Alignment: NFPA 1010 (2024), Ch. 6 & 7 (Firefighter I & II)

Prerequisites: Firefighter I (or KFRTI Local Verification Form)

In-Person

This standalone skills-based course is designed for firefighters who need to complete, refresh, or remediate practical skills aligned to NFPA 1010 (2024). Students rotate through structured skills stations covering core Firefighter I and II psychomotor objectives. This course does not include a written examination component.

Delivery:
In-person skills stations

Hybrid

The hybrid version includes a brief online orientation module covering skills expectations and station requirements, followed by a full in-person skills day. Ideal for departments scheduling skills refresher days or makeup sessions for students in the hybrid Firefighter I/II tracks.

Delivery:
Online orientation + in-person skills day

Exterior Burn [LE]

NFPA Alignment: NFPA 1010 (2024), Ch. 6 (Firefighter I) / NFPA 1403

Prerequisites: Firefighter I (or KFRTI Local Verification Form)

In-Person

This course introduces students to live fire training in an outdoor environment, conducted in compliance with NFPA 1403. Students apply foundational fire behavior knowledge, hose handling skills, and crew coordination through exterior attack evolutions. All burns are conducted under qualified instructor supervision per KFRTI safety protocols.

Delivery:
In-person live fire evolutions

Hybrid

The hybrid version includes self-paced online pre-burn modules covering NFPA 1403 safety requirements, fire behavior review, and evolution briefings. Students then attend a defined in-person burn day to complete all required live fire evolutions under instructor supervision.

Delivery:
Self-paced online pre-burn modules + in-person live fire day

Interior Burn [LE]

NFPA Alignment: NFPA 1010 (2024), Ch. 6 & 7 (Firefighter I & II) / NFPA 1403

Prerequisites: Firefighter I (or KFRTI Local Verification Form)

In-Person

This course provides students with structured interior live fire training in compliance with NFPA 1403. Evolutions focus on interior attack operations, hoseline management, search and rescue integration, and crew accountability under realistic fire conditions. All evolutions are conducted in an acquired structure or training facility under direct instructor supervision per KFRTI safety protocols.

Delivery:
In-person live fire evolutions

Hybrid

The hybrid Interior Burn course delivers all preparatory didactic content including NFPA 1403 compliance requirements, interior attack tactics, and safety briefings through self-paced online modules. Students attend a defined in-person burn day to complete all required interior live fire evolutions.

Delivery:
Self-paced online pre-burn modules + in-person live fire day

EV / Hybrid Vehicle Fires [LE | IN DEVELOPMENT]

NFPA Alignment: *NFPA 1010 (2024) — Chapter TBD | Under Research*

Prerequisites: Firefighter I (or KFRTI Local Verification Form)

In-Person

This course prepares firefighters to safely recognize, approach, and suppress fires involving electric and hybrid vehicles. Students will learn EV and hybrid vehicle construction, high-voltage hazard identification, battery fire characteristics, suppression strategies, and post-incident stabilization. Instruction is delivered through classroom presentation, vehicle familiarization, and practical suppression exercises.

Delivery:
In-person classroom + practical exercises

Hybrid

The hybrid EV/Hybrid Vehicle Fires course delivers all didactic content including vehicle systems, high-voltage hazards, and suppression theory through self-paced online modules. Students attend a defined in-person day for vehicle familiarization and practical suppression exercises.

Delivery:
Self-paced online + in-person practical day

Modern Fire Dynamics [TBD | IN DEVELOPMENT]

NFPA Alignment: *NFPA 1010 (2024) — Chapter TBD | Under Research*

Prerequisites: Firefighter I (or KFRTI Local Verification Form)

In-Person

This course examines the evolution of modern fire behavior and its tactical implications for today's fireground. Students explore changes in fuel load, compartment fire dynamics, flow path management, and the science behind modern suppression strategies. Content is grounded in current UL FSRI and NIST research and is designed to challenge and update firefighter assumptions built on legacy fire behavior models.

Delivery:
In-person classroom + tabletop scenario discussions

Hybrid

The hybrid Modern Fire Dynamics course delivers all research-based didactic content through engaging self-paced online modules, including video resources from UL FSRI and NIST. Students attend a defined in-person day for applied scenario discussions, tabletop exercises, and instructor-led debrief.

Delivery:
Self-paced online + in-person scenario day

Hoarder Fires [TBD | IN DEVELOPMENT]

NFPA Alignment: *NFPA 1010 (2024) — Chapter TBD | Under Research*

Prerequisites: Firefighter I (or KFRTI Local Verification Form)

In-Person

This course prepares firefighters to safely and effectively operate at fires in hoarding environments. Students examine the unique structural, suppression, search, and egress challenges posed by extreme clutter conditions including compromised flow paths, obscured egress routes, increased fire load, and reduced structural integrity. Tactical decision-making frameworks, crew safety practices, and pre-incident planning considerations are covered through classroom instruction and scenario-based exercises.

Delivery:
In-person classroom + scenario-based exercises

Hybrid

The hybrid Hoarder Fires course delivers all cognitive content including hoarding environment hazards, tactical adjustments, structural considerations, and crew safety principles through self-paced online modules. Students attend a defined in-person day for scenario-based tactical exercises and instructor-facilitated debrief.

Delivery:
Self-paced online + in-person scenario day

DRIVER / OPERATOR

Driver Operator - Driver

NFPA Alignment: NFPA 1010 (2024), Ch. 11 (Driver/Operator — General)

Prerequisites: valid driver's license

In-Person

This foundational course covers the core driver/operator competencies required of all apparatus operators regardless of discipline. Students learn apparatus inspection and maintenance, safe driving principles, backing and maneuvering operations, and Kansas traffic law as it applies to emergency vehicle operation. This course is the prerequisite foundation for all discipline-specific Driver Operator courses.

Delivery:
In-person classroom + driving range evolutions

Hybrid

The hybrid Driver Operator - Driver course delivers all cognitive content including inspection procedures, traffic law, and safe driving principles through self-paced online modules. Students attend a defined in-person day for all driving range evolutions and apparatus maneuvering skill requirements.

Delivery:
Self-paced online + in-person driving range day

DO Pumper [TBD]

NFPA Alignment: NFPA 1010 (2024), Ch. 11 & 12 (Driver/Operator — General & Pump)

Prerequisites: EVDT, valid driver's license

In-Person

This course prepares students to meet the professional qualifications for Driver/Operator - Pumper as defined by NFPA 1010 (2024). Students learn pumping theory, hydraulic calculations, water supply operations, and apparatus operation through classroom instruction and extensive practical pumping evolutions.

Delivery:
In-person classroom + practical pumping evolutions

Hybrid

The hybrid DO Pumper course delivers all cognitive content including hydraulics, pump theory, and water supply principles through self-paced online modules. Students attend defined in-person days to complete apparatus operation and pumping skill requirements.

Delivery:
Self-paced online + defined in-person skills days

DO Aerial [TBD]

NFPA Alignment: NFPA 1010 (2024), Ch. 11 & 13 (Driver/Operator — General & Aerial)

Prerequisites: EVDT, DO Pumper, valid driver's license

In-Person

This course prepares students to meet the professional qualifications for Driver/Operator - Aerial as defined by NFPA 1010 (2024). Topics include aerial device operation, stability and positioning principles, hydraulic systems, and aerial deployment evolutions. Students complete both classroom instruction and hands-on apparatus operation.

Delivery:
In-person classroom + practical aerial evolutions

Hybrid

The hybrid DO Aerial course delivers aerial theory, stability principles, and systems knowledge through self-paced online modules. Students attend defined in-person days for all apparatus operation and aerial deployment skill requirements.

Delivery:
Self-paced online + defined in-person skills days

DO Mobile Water Supply [COMING SOON — Live Dec 2026]

NFPA Alignment: NFPA 1010 (2024), Ch. 11 & 17 (Driver/Operator — General & Mobile Water Supply)

Prerequisites: EVDT, valid driver's license (Recommended- **D/O Pumper)**

In-Person

This course prepares students to meet the professional qualifications for Driver/Operator - Mobile Water Supply as defined by NFPA 1010 (2024). Students learn tanker/tender operations, drafting, shuttle operations, and dump site management through classroom instruction and practical field evolutions.

Delivery:
In-person classroom + practical field evolutions

Hybrid

The hybrid DO Mobile Water Supply course delivers all cognitive content including tanker operations, shuttle calculations, and drafting principles through self-paced online modules. Students attend defined in-person days to complete all apparatus operation and field evolution requirements.

Delivery:
Self-paced online + defined in-person skills days

Driver SIM Basic [TBD]

NFPA Alignment: NFPA 1010 (2024), Ch. 11 (Driver/Operator — General)

Prerequisites: Valid driver's license

In-Person

This course introduces students to emergency vehicle operation using a driving simulator. Students develop foundational situational awareness, reaction time, and vehicle control skills in a safe, controlled simulator environment. Scenarios focus on basic apparatus navigation, intersection management, and hazard recognition. Ideal as an entry point for new drivers or as a refresher for personnel returning to apparatus operation.

Delivery:
In-person simulator sessions

Hybrid

The hybrid Driver SIM Basic course delivers introductory content including situational awareness principles, intersection management theory, and hazard recognition through self-paced online modules. Students attend a defined in-person simulator session to apply concepts through structured driving scenarios.

Delivery:
Self-paced online + in-person simulator session

Driver SIM Intermediate [TBD]

NFPA Alignment: NFPA 1010 (2024), Ch. 11 (Driver/Operator — General)

Prerequisites: Driver SIM Basic

In-Person

Building on Driver SIM Basic, this course advances students through more complex emergency vehicle operation scenarios. Scenarios introduce multi-unit response, adverse weather and road conditions, high-stress intersection navigation, and decision-making under pressure. Students are evaluated on progressive improvement in apparatus control and situational awareness.

Delivery:
In-person simulator sessions

Hybrid

The hybrid Driver SIM Intermediate course covers advanced driving concepts including adverse condition response, multi-unit coordination, and decision-making frameworks through self-paced online modules before students attend a defined in-person simulator session for applied scenario practice.

Delivery:
Self-paced online + in-person simulator session

Driver SIM Advanced [TBD]

NFPA Alignment: NFPA 1010 (2024), Ch. 11 (Driver/Operator — General)

Prerequisites: Driver SIM Intermediate

In-Person

This capstone simulator course challenges students with high-complexity emergency vehicle operation scenarios designed to stress-test decision-making, vehicle control, and situational awareness. Scenarios include multi-hazard environments, night operations, and high-speed response corridors. Students completing this course will have demonstrated proficiency across the full Driver SIM series and are prepared for discipline-specific apparatus certification courses.

Delivery:
In-person simulator sessions

Hybrid

The hybrid Driver SIM Advanced course delivers preparatory content covering complex scenario management, night operations, and multi-hazard response theory through self-paced online modules. Students attend a defined in-person capstone simulator session to complete all advanced scenario requirements.

Delivery:
Self-paced online + in-person simulator session

Pump Simulator [TBD]

NFPA Alignment: NFPA 1010 (2024), Ch. 11 & 12 (Driver/Operator — General & Pump)

Prerequisites: Firefighter I (or KFRTI Local Verification Form), valid driver's license (DO Pumper enrollment recommended)

In-Person

This course uses a pump simulator to develop and reinforce hydraulic calculation skills, pump operation procedures, and water supply management in a controlled training environment. Students work through progressive pumping scenarios including single-supply operations, multi-line deployments, and relay pumping. Ideal as a standalone skills builder or as a complement to the DO Pumper certification track.

Delivery:
In-person simulator sessions

Hybrid

The hybrid Pump Simulator course delivers hydraulic theory, calculation review, and scenario briefings through self-paced online modules. Students attend a defined in-person simulator session to complete all progressive pumping scenarios and competency demonstrations.

Delivery:
Self-paced online + in-person simulator session

SHARED COURSES

FIT Testing [LE/TBD]

NFPA Alignment: NFPA 1010 (2024), Ch. 4 (General Requirements) / OSHA 29 CFR 1910.134

Prerequisites: None (valid medical clearance required)

In-Person

This course provides qualitative and/or quantitative respirator fit testing for fire service personnel in compliance with OSHA 29 CFR 1910.134 and NFPA 1010 requirements. Students complete a medical evaluation review, respirator donning and doffing demonstration, and fit test protocol. Successful completion documents compliance for annual SCBA fit testing requirements.

Delivery:
In-person fit testing session

Hybrid

The hybrid FIT Testing course delivers all preparatory content including OSHA respiratory protection requirements, medical evaluation overview, and proper donning and doffing procedures through a self-paced online module. Students then attend a defined in-person session to complete the fit test protocol and documentation.

Delivery:
Self-paced online + in-person fit testing session

IN DEVELOPMENT

Building Construction for the Fire Service [TBD | IN DEVELOPMENT]

NFPA Alignment: *NFPA 1010 (2024) — Chapter TBD | Under Research*

Prerequisites: None

In-Person

This course provides firefighters with a working understanding of building construction types, materials, and failure modes as they relate to fireground operations. Students examine Type I through Type V construction classifications, load-bearing systems, lightweight construction hazards, and indicators of structural compromise. Content is applied directly to size-up, tactical decision-making, and firefighter safety.

Delivery:
In-person classroom + field site visits (as available)

Hybrid

The hybrid Building Construction course delivers all cognitive content including construction classifications, structural systems, and failure indicators through self-paced online modules with video and diagram resources. Students attend a defined in-person day for applied scenario discussions and field-based observation exercises.

Delivery:
Self-paced online + in-person applied session

Tactics & Strategies I [TBD | IN DEVELOPMENT]

NFPA Alignment: *NFPA 1010 (2024) — Chapter TBD | Under Research*

Prerequisites None

In-Person

This course introduces students to the foundational principles of fireground tactics and strategies. Topics include incident size-up, resource deployment, attack mode selection (offensive, defensive, transitional), water supply considerations, and crew coordination. Students apply concepts through structured tabletop exercises and scenario-based discussions grounded in NFPA 1010 objectives.

Delivery:
In-person classroom + tabletop scenario exercises

Hybrid

The hybrid Tactics & Strategies I course delivers all foundational content including size-up frameworks, attack modes, and resource deployment principles through self-paced online modules. Students attend a defined in-person day for tabletop scenario exercises and instructor-facilitated tactical debrief.

Delivery:
Self-paced online + in-person scenario day

Tactics & Strategies II [TBD | IN DEVELOPMENT]

NFPA Alignment: *NFPA 1010 (2024) — Chapter TBD | Under Research*

Prerequisites: Tactics & Strategies I

In-Person

Building on Tactics & Strategies I, this course advances students into more complex multi-unit fireground scenarios. Topics include command and control, sector assignments, mutual aid coordination, large-structure operations, and post-incident analysis. Students are challenged with progressively complex tabletop and functional scenarios requiring integrated tactical decision-making.

Delivery:
In-person classroom + functional tabletop exercises

Hybrid

The hybrid Tactics & Strategies II course delivers all advanced content including command structures, multi-unit coordination, and complex scenario management through self-paced online modules. Students attend a defined in-person day for applied functional exercises and instructor-led scenario debrief.

Delivery:
Self-paced online + in-person functional exercise day

RIT (Rapid Intervention Team) [TBD | IN DEVELOPMENT]

NFPA Alignment: *NFPA 1010 (2024) — Chapter TBD | Under Research*

Prerequisites: Firefighter I (or KFRTI Local Verification Form)

In-Person

This course prepares firefighters to operate as members of a Rapid Intervention Team. Students learn RIT activation procedures, air management, downed firefighter packaging and removal, emergency SCBA operations, and Mayday communication protocols. Evolutions are conducted in realistic conditions requiring full structural PPE and team coordination under stress. Note: Individual firefighter survival skills are covered in the separate FF Survival course.

Delivery:
In-person classroom + practical RIT evolutions

Hybrid

The hybrid RIT course delivers all cognitive content including activation procedures, air management principles, and Mayday protocols through self-paced online modules. Students attend a defined in-person day for all practical downed firefighter packaging and removal evolutions in full structural PPE.

Delivery:
Self-paced online + in-person RIT skills day

FF Survival [TBD | IN DEVELOPMENT]

NFPA Alignment: *NFPA 1010 (2024) — Chapter TBD | Under Research*

Prerequisites: Firefighter I (or KFRTI Local Verification Form)

In-Person

This course focuses on individual firefighter survival skills for rapidly deteriorating fireground conditions. Students train in emergency SCBA procedures, self-rescue techniques, personal escape systems, entanglement survival, and Mayday declaration and communication. The course is physically demanding and requires full structural PPE throughout all evolutions. Note: Team-based RIT operations are covered in the separate RIT course.

Delivery:
In-person classroom + intensive survival skill evolutions

Hybrid

The hybrid FF Survival course delivers all cognitive content including emergency SCBA procedures, self-rescue theory, and Mayday communication through self-paced online modules. Students attend a defined in-person day to complete all physical survival skill evolutions in full structural PPE.

Delivery:
Self-paced online + in-person survival skills day

Advanced Pump Operator [TBD | IN DEVELOPMENT]

NFPA Alignment: NFPA 1010 (2024), Ch. 12 (Driver/Operator — Pump)

Prerequisites: DO Pumper

In-Person

This advanced course builds on DO Pumper competencies and challenges students with complex water supply and pumping scenarios beyond entry-level certification requirements. Topics include advanced hydraulic calculations, large-diameter hose operations, foam systems, multi-pump relay operations, and high-flow water supply for large-scale incidents.

Delivery:
In-person classroom + advanced pumping evolutions

Hybrid

The hybrid Advanced Pump Operator course delivers all advanced cognitive content including foam theory, large-diameter hose hydraulics, and multi-pump relay calculations through self-paced online modules. Students attend defined in-person days to complete all advanced pumping evolutions and scenario-based skill demonstrations.

Delivery:
Self-paced online + defined in-person skills days

Advanced Aerial Operator [TBD | IN DEVELOPMENT]

NFPA Alignment: NFPA 1010 (2024), Ch. 13 (Driver/Operator — Aerial)

Prerequisites: DO Aerial

In-Person

This advanced course extends DO Aerial competencies into complex operational scenarios including elevated master stream operations, technical rescue positioning, high-angle victim removal, and multi-apparatus coordination. Students refine aerial deployment decision-making through scenario-based evolutions requiring proficient apparatus operation under time pressure and simulated fireground conditions.

Delivery:
In-person classroom + advanced aerial evolutions

Hybrid

The hybrid Advanced Aerial Operator course covers advanced positioning theory, elevated master stream operations, and multi-apparatus coordination through self-paced online modules. Students attend defined in-person days for all advanced aerial deployment evolutions and scenario-based skill demonstrations.

Delivery:
Self-paced online + defined in-person skills days

Advanced Mobile Water Supply [TBD | IN DEVELOPMENT]

NFPA Alignment: NFPA 1010 (2024), Ch. 17 (Driver/Operator — Mobile Water Supply)

Prerequisites: DO Mobile Water Supply

In-Person

This advanced course expands on DO Mobile Water Supply competencies with an emphasis on large-scale rural water supply operations, tanker task force coordination, and high-volume shuttle management. Students work through complex multi-tanker scenarios, portable tank operations, and incident command integration for sustained water supply on significant incidents.

Delivery:
In-person classroom + advanced field evolutions

Hybrid

The hybrid Advanced Mobile Water Supply course delivers advanced water supply theory including tanker task force management, high-volume shuttle calculations, and portable tank operations through self-paced online modules. Students attend defined in-person days to complete all advanced field evolutions and multi-tanker scenario requirements.

Delivery:
Self-paced online + defined in-person skills days

ARFF [COMING SOON — Live Dec 2026]

NFPA Alignment: NFPA 1010 (2024), Ch. 16 (Driver/Operator — Aircraft Rescue and Firefighting) / NFPA 403 / FAA AC 150/5210-17	**Prerequisites:** Firefighter I (or KFRTI Local Verification Form)

In-Person

This course prepares firefighters to operate at aircraft rescue and firefighting incidents in compliance with NFPA 403 and applicable FAA requirements. Students learn aircraft familiarization, ARFF apparatus operation, agent application techniques, rescue operations, and airport emergency plan integration. Live fire training evolutions using aircraft mockups or acquired equipment are included where available.	**Delivery:** In-person classroom + practical ARFF evolutions

Hybrid

The hybrid ARFF course delivers all cognitive content including aircraft construction, agent systems, FAA requirements, and rescue principles through self-paced online modules. Students attend defined in-person days for all apparatus familiarization, agent application, and live fire evolution requirements.	**Delivery:** Self-paced online + defined in-person skills days

Fiscal Year 2027 National Fire Academy-Sponsored (2-Day On/Off-Campus) Course List

Prerequisite requirements are listed on individual course webpages.

Emergency Medical Services

F/W0166 — EMS Functions in ICS[1,4]
F/W0146 - Supervising Emergency Medical Services[4]

Arson

F/W0756 — Fire as a Weapon
F/W0770 — Fire Investigation: First Responders

Terrorism

F/W0549 — Emergency Response to Terrorism: Strategic Considerations[1]

Leadership and Executive Development

F/W0121 — Politics and the White Helmet
F/W0520 — Executive Skills Series: Exercising Leadership Within Communities
F/W0521 — Executive Skills Series: Exercising Leadership to Facilitate Adaptive Change
F/W0522 — Executive Skills Series: Exercising Leadership Through Difficult Conversations
F/W0523 — Executive Skills Series: Exercising Leadership Ethically
F/W0602 — Shaping the Future
F/W0646 — Leadership in Supervision: Creating Environments for Professional Growth
F/W0647 — Leadership in Supervision: Perspectives in Thinking
F/W0648 — Leadership in Supervision: Frameworks to Success
F/W0760 — New Fire Chief: Challenging Issues
F/W0761 — New Fire Chief: Administrative Issues
F/W0762 — New Fire Chief: Contemporary Issues

Fire Prevention: Management

F0633 — Youth Firesetting Intervention Specialist[1, 2]
F0621 — Youth Firesetting Interviewing and Educational Intervention Strategies[1, 2, 3]
F0634 — Youth Firesetting Program Manager[1, 2]
F/W0636 — Building Organizational Support for Community Risk Reduction[1, 4]

Fire Prevention: Technical

F0142 — Residential Sprinkler Plan Review[5]

Incident Management

W0296 — Command and Control for Company-Level Operations
F/W0321 — Incident Command for Highrise Operations
F/W0322 — Incident Command System for Structural Collapse Incidents
F/W0376 — Incident Command System and Resource Management for the Fire Service
F/W0455 — Strategy and Tactics for Initial Company Operations
F/W0457 — Decision-Making for Initial Company Operations
F/W0458 — Preparation for Initial Company Operations
F/W0609 — Introduction to Unified Command for All-Hazard Incidents
F/W0610 — Wildland Urban Interface Firefighting for the Structural Company Officer
F/W0612 — Command and Control of Wildland Urban Interface Fire Operations for the Structural Chief Officer

Responder Health and Safety

F/W0722 — Health and Safety Program Manager[4]
FW0729 — Incident Safety Officer[4]

[1] Prerequisite and/or pre-course assignment. Read the course description for details.
[2] Maximum of 20 students.
[3] Students must take F0633 Youth Firesetting Intervention Specialist first.
[4]Maximum of 24 students.

Fiscal Year 2027 National Fire Academy-Sponsored (2-Day On/Off-Campus) Course List

Prerequisite requirements are listed on individual course webpages.

Emergency Medical Services

F/W0166 — EMS Functions in ICS[1,4]
F/W0146 - Supervising Emergency Medical Services[4]
