KFRTI State of the Institute

Director's Report | November 12, 2026

Introduction

The Kansas Fire & Rescue Training Institute (KFRTI) continues to evolve and expand its impact across the state. I am pleased to report that, as of November 8, 2026, the Institute has officially moved into the School of Professional Studies following the reorganization of the former Jayhawk Global. With the support of School of Professional Studies Vice Provost Stuart Day, our mission to provide high-quality fire and emergency services training and certification programs remains unchanged.

Program Updates

Special Operations

In October, our Special Operations Program hosted four Taiwanese special operations firefighters who participated in a Structural Collapse course with members of the Kansas Technical Rescue Task Force. This collaboration will continue when KFRTI Special Operations instructors travel to Taiwan in April and May 2027 to instruct and certify firefighters in Structural Collapse, Confined Space, and Rope Rescue.

Certification

Certification staff continue to make significant progress in the transition to computer-based testing using the Kite assessment platform. The program remains on track to achieve 100% computer-based certification testing by January 1, 2027. This transition represents a major advancement in accessibility, efficiency, and test administration.

In early November, KFRTI gained IFSAC accreditation for Common Passenger Vehicle Extrication and entered the final approval stage with the Pro Board. The course is expected to be available in early 2027.

ARFF

We are at the contract stage with the Metropolitan Topeka Airport Authority to begin offering ARFF refresher and certification courses using their stationary, class A ARFF prop. The intent to acquire our own mobile prop. But this will serve as a stop gap while we figure out that funding.

Kansas Fire Chief 101

KS FC 101 will be back this year in Salina! Piggybacking off of the KSFFA Treasurers meeting in January we are expecting another full house!

Fire Inspector

Fire Inspector is still in development but we are hopeful to have the accreditation package to IFSAC and Proboard just after the first of the year.

Bachelor of Science in Fire and Emergency Services Administration

The Bachelor of Science in Fire and Emergency Services Administration (FESA), developed in partnership with the School of Public Affairs and Administration, advanced through KU's Academic Program Coordinating Committee (APCC) without issue. The proposal will next proceed through the Kansas Board of Regents approval process, the final step before the program becomes official.

Staff Updates

We have hired 9 new part-time instructors. Things are so busy we need more help. If you know anyone who would be a good live fire instructor, this seems to be a place of particular need. Also Certification evaluators.

Office Manager Joliene Lummis will graduate from KU's Emerging Leaders Academy (ELA) in December. ELA is a professional development program for public-sector employees that prepares promising nonmanagerial staff members for leadership roles in their departments and organizations.

Associate Director Ken Fowler and Certification Program Manager Erica Henderson both served on IFSAC site teams this fall. Erica reviewed 75 levels in an IFSAC site visit in Washington, D.C., while Ken served on a site team reaccrediting 70 levels North Carolina. And I was pretty excited about being almost to 30.

Special Operations Program Manager Ben Green and Coordinator Matt Breininger traveled to Frankfort, Illinois, to attend Paratech University Instructor Training. This training enables them to maintain and repair KFRTI's Paratech equipment in-house, reducing the need to send equipment out for service.

Firefighter Program Manager Mike Brockwell and Coordinator Nick Wright attended the Makita Innovation Experience, where they gained hands-on experience with new tools and equipment designed for the fire service.

Certification Program Manager Erica Henderson, Firefighter Program Manager Mike Brockwell, and Contract Evaluator Katie Cressionie traveled to Anchorage, Alaska, to assess and evaluate Anchorage Fire Department personnel in Mobile Water Supply, Driver Operator Pumper, and Driver Operator Aerial. The students were well prepared, and all successfully passed.

In September, KFRTI staff attended the 2026 North American Fire Training Directors (NAFTD) Conference in Baton Rouge, Louisiana.

The conference provided an important opportunity for our team to observe conference operations and identify best practices in preparation for hosting the 2027 NAFTD Conference in Lawrence, Kansas. The knowledge gained will support planning efforts and help ensure a successful event for attendees from across North America.

KFRTI staff will be on break from December 24-January 1. We will be back 'in the office' January 4.

Closing

KFRTI remains committed to continuous improvement, innovation, and excellence in serving Kansas firefighters and emergency responders.

Through strategic program development, new educational opportunities, technology enhancements, and strong partnerships, the Institute is well positioned for continued success and growth in the coming year.
